

TEACHER'S

Prayer

Lord, please bless my students
And help them as they grow.
May I teach them faithfully
The things they need to know.
So they may face the future
Knowing they're prepared,
And when they think of school days,
May they know their teacher cared.

Narrative as Writing and Literacy Pedagogy for Preservice Elementary Teachers Nancy A. Wasser, 2021-08-16 I just cannot write or I am not a good writer are familiar complaints from students in academia Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career In this book Nancy A Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin Those who cannot read will not be able to write Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self aware of their voices By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process Good writers are not born that way but made through effort and practice Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children voices
