

CHAPTER 1: THE TEACHING PROFESSION

LESSON 1 : Teaching as a Profession

"Without hard work and discipline it is difficult to be a top professional."

LEARNING OUTCOMES

- Explain the meaning of teaching as a profession
- Trace the historical development of teaching as a profession in the Philippines

The Elements of a Profession

1. **Initial Professional Education**- Professionals generally begin their professional lives by completing a university program in their chosen fields- teacher education, engineering, nursing, accountancy. This means long and arduous years of preparation. Take note this is just initial, which means only the beginning because a professional is expected to learn endlessly.
2. **Accreditation**- University programs are approved by a regulatory body like the Commission on Higher Education (CHED) in the Philippines to ensure that graduates from these recognized programs start their professional lives with competence.
3. **Licensing**- Licensing is mandatory, not voluntary and is administered by a government authority. In the Philippines, this government authority is the Professional Regulation Commission (PRC).
