It's Morphing Time: Power Rangers and a New Media Landscape

While some teenagers have to deal with zits, math tests, and asking a crush to prom, others wear colored bodysuits and perform martial arts against strange, extra-dimensional evil. Premiering in the U.S. in the early 90s, *Power Rangers* presented a weird, new form of entertainment, introducing children to martial arts and Japanese culture in the trappings of Saturday morning programming and the after-school special. Despite its often fantastical leanings, *Power Rangers* presented an integral turning point in children's programming and media at large.

Although it presented something new and largely unseen by Western audiences, *Power Rangers* was anything but. All of the action scenes were taken directly from Japan's *Super Sentai* series (specifically *Kyoryu Sentai Zyuranger*), intercut with scenes of an American cast existing within tranquil Angel Grove. The *Super Sentai* series stayed within the traditions of the long-running line of programming known as tokusatsu, meaning "special effects" (a reference to the use of practical special effects).

Transplanting Japanese cultural media and overlaying it upon an American production and audience posed its own challenges, but the almost immediate success came from its own storytelling. At first blush, winding fantastical adventures and impressive martial arts into the everyday lives of American teens (who dealt with bullying, teamwork, and celebrating birthdays) seems disparate. However, the combination led to instantly relatable stories that resonated with children, imparting ideas of community and selflessness through skills and talents of all forms, physical, mental, and emotional.

In conclusion, *Power Rangers* presented an amalgam of different cultural ideas to create a new children's media landscape. The original series has since given rise to ongoing series, along with offshoot books, comics, and other media. For many kids, the show was an introduction to new ideas that were still grounded within the parks, schools, and suburbs of their lives. It was a form of escapism and imagination that stayed within the bounds of a reality that could be cruel, difficult to understand, or full of light. It just took some friends, some martial arts, and the ability to morph into something new.

Narrative as Writing and Literacy Pedagogy for Preservice Elementary Teachers Nancy A. Wasser, 2021-08-16 I just cannot write or I am not a good writer are familiar complaints from students in academia Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career In this book Nancy A Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin Those who cannot read will not be able to write Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self aware of their voices By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process Good writers are not born that way but made through effort and practice Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children voices

Changing the Way We Teach Sally Barr Ebest, 2005 Changing the Way We Teach Writing and Resistance in the Training of Teaching Assistants draws on eighteen case studies to illustrate the critical role writing plays in overcoming graduate student resistance to instruction facilitating change and developing professional identity Sally Barr Ebest argues that teaching assistants in English must be actively engaged in the theory and practice underlying composition pedagogy in order to better understand how to alter the way they teach and why such change is necessary In illustrating the potential for change when the paradigm shift in composition is applied to graduate education Ebest considers recent discussions of composition pedagogy post secondary teaching theories cognitive social cognitive and educational psychology

and issues of gender voice and writing Stemming from research conducted over a five year period this volume explores how a cross section of teaching assistants responded to pedagogy as students and how their acceptance of pedagogy affected their performance as instructors Investigating reasons behind manifestations of resistance and necessary elements for overcoming it Ebest finds that engagement in composition strategies reflective writing journaling drafting and active learning and restoration of feelings of self efficacy are the primary factors that facilitate change Concerned with gender as it relates to personal construct Changing the Way We Teach traces the influence of familial expectations and the effects of literacy experiences on students and draws correlations between feminist and composition pedagogy Ebest asserts that the phenomena contributing to the development of a strong unified voice in women self knowledge empathy positive role models and mentors should be essential elements of a constructivist graduate curriculum To understand composition pedagogy and to convince students of its values Ebest holds that educators must embrace it themselves and trace the effects through active research By providing graduate students with pedagogical sites for research and reflection faculty enable them to express their anger or fear study its sources and quite often write their way to a new understanding

Landmark Essays on Writing Centers Christina Murphy, Joe Law, 2013-10-18 This collection introduces the reader to the ideas that have shaped writing center theory and practice The essays have been selected not only for the insight they offer into issues but also for their contributions to writing center scholarship These papers help to chart the legitimization of writing centers by providing both a history and an examination of the philosophies praxis and politics that have defined this emerging field They demonstrate the ways a clearer profile of the discipline has emerged from the research and reflection of writers like those represented here This volume charts the emergence of writing centers and the growing recognition of their contributions roles and importance As a nascent discipline writing centers reflect the concerns with marginality and with finding a respected place in the academy that characterize any new field of academic inquiry practice and research Concomitantly professionals in these fields seek standing within the academy and a way of defining and validating their contributions to the educational process Contemporary writing center theorists look to interdisciplinary and multidisciplinary investigations to interpret the work they do and to clarify their aims to the academy at large Their work employs a variety of philosophical perspectives ranging from sociolinguistics to psychoanalytic theory to show the complex nature and potential of writing center interactions The idea has now become the multidimensional realities of the writing center within the academy and within society as a whole What its role will be in future redefinitions of the educational process how that role will be negotiated and evaluated and how professionals will shape educational values will constitute the future landmark directions and essays on writing center theory and practice
