Educational Times ,1880 Implementing and Analyzing Performance Assessments in Teacher Education Joyce E. Many,Ruchi Bhatnagar,2017-12-01 Teacher education has long relied on locally developed assessments that lack reliability and validity Rigorous performance based assessments for preservice teachers have been advanced as one possible way to ensure that all students receive instruction from a high quality teacher Recently performance based assessments have been developed which focus on the application of knowledge of teaching and learning in a classroom setting Our book explores factors related to the implementation of teacher performance assessments in varying state and institutional contexts The contributors teacher educators from across the country focus on what was learned from inquiries conducted using diverse methodologies quantitative qualitative self studies and mixed methods Their research encompassed faculty supervisors cooperating teachers and students perceptions and concerns of teacher performance assessments case studies of curricular reform and or resistance analyses of experiences and needs as a result of the adoption of such assessments and examinations of the results of program alignment and reform The chapters showcase experiences which occurred during high stakes situations in implementation periods prior to high stakes adoption and in contexts where programs adopted performance assessments as an institutional policy rather than as a result of a state wide mandate Endorsements The chapters compiled for Implementing and Analyzing Performance Assessments in Teacher Education edited by Joyce E Many and Ruchi Bhatnagar present a thoughtful look at the challenges and solutions embedded in the adoption of teacher performance assessments for preservice teachers Most chapters feature edTPA the most commonly used performance assessment now mandated in numerous states and used voluntarily by other programs across the country and reveal how such assessments shine a bright light on the problems of practice in teacher preparation stressful timelines faculty silos communication with P 12 partners etc when new requirements disrupt the status quo Each chapter tells a valuable story of performance assessment implementation and approaches that offset compliance in favor of inquiry and educative experiences for candidates and programs alike Andrea Whittaker Ph D edTPA National Director Stanford University Graduate School of Education UL SCALE Many and Bhatnagar launch the AAPE book series with a curated volume highlighting the contexts in which teacher educators implement and utilize performance assessments in educator preparation Together the chapters present research from various viewpoints from candidates faculty university supervisors and clinical partners using diverse methodologies and approaches The volume contributes significantly to the program assessment research landscape by providing examples of how performance assessments inform preparation at the intersection of praxis and research and campus and field These chapters provide a critical foundation for teacher educators eager to leverage performance assessments to improve their programs Diana B Lys EdD Assistant Dean of Educator Preparation and Accreditation School of Education University of North Carolina at Chapel Hill **Sex and Harm in the Age of Consent** Joseph J. Fischel,2016-05-15 Sex and Harm in the

Age of Consent cautions against the adoption of consent as our primary determinant of sexual freedom For Joseph J Fischel consent is not necessarily always ethically sound It is he argues a moralized fiction and it churns out figures for its normativity the predatory sex offender and the innocent child Examining the representation of consent in U S law and media culture Fischel contends that the figures of the sex offender and the child are consent s alibi its negative space enabling fictions that allow consent to do the work cut out for it under late modern sexual politics Engaging legal queer feminist and political theory case law and statutory law and media representations Fischel proposes that we change our adjudicative terms from innocence consent and predation to vulnerability sexual autonomy and peremption which he defines as the uncontrolled disqualification of possibility Such a shift in theory law and life would be less damaging for young people more responsive to sexual violence and better for sex
