The Production and Operations Management Society (POMS) is one of the most important and influential societies in the subject of Production Engineering and as an international professional and academic organization represents the interests of professionals and academics in production management and operations around the world Religion,

Disability, and Sustainable Development in Africa Chioma Ohajunwa, Kudakwashe 'AK' Dube, Ezra Chitando, 2025-02-14 This book investigates the interplay between disability and religion in Africa and what this means in the context of the Sustainable Development Goals. The importance of meeting the needs of people with disabilities is highlighted specifically in several Sustainable Development Goals as well as being emphasised as a cross-cutting issue across all the goals. Over 1 billion people are estimated to be living with disabilities and 80% of this population live in the Global South, many within Africa. This book argues that within this context, religion must be considered as people with disabilities often turn to religion for solace in confronting the daily struggles and pains that they face. Drawing on multiple disciplinary lenses, this book reflects on how traditional indigenous Abrahamic and other African minority religions and philosophies interact with disability and how this relates to the Sustainable Development Goals. The book demonstrates how religions in Africa conceptualise, imagine or re-imagine disability in the context of key themes such as gender, ecological justice, health, poverty, education, employment, entrepreneurship and migration. Overall, the book invites researchers from across the social sciences to consider how African religious, theological and philosophical ideas can help towards the inclusion of people with disabilities in the 2030 development agenda in Africa **Les troubles liés aux événements traumatiques. Guide des meilleures pratiques pour une clientèle complexe** Suzie Bond, 2019-04-23T00:00:00-04:00

Au Canada, la majorité (76 %) de la population vivra un événement traumatique au cours de sa vie. Même si la plupart des personnes arrivent à s'adapter, un tel événement provoque chez 10 % d'entre elles le développement d'un trouble de stress post-traumatique (TSPT). Ce nombre peut tripler voire quadrupler dans les populations plus

risque comme les militaires les victimes d'agressions sexuelles et les individus gravement blessés. Outre le TSPT, plusieurs troubles peuvent apparaître la suite d'un trauma, soit une humeur dépressive, de l'insomnie et des cauchemars, une consommation inappropriée d'alcool ou de drogue, pour ne nommer que ceux-ci. En somme, les cliniciens sont souvent équipés de cette clientèle des plus complexes. Cet ouvrage est le premier en français à présenter les meilleures pratiques dans l'évaluation et le traitement du TSPT et des troubles connexes dans un langage accessible aux cliniciens. Ancré rigoureusement à la fois dans la recherche scientifique et dans la pratique clinique, il se veut un exercice de transfert de connaissances de la recherche vers la clinique. Ainsi, il aidera les cliniciens choisir le traitement le plus approprié pour leur patient et leur apportera les outils et les ressources nécessaires pour mettre les recommandations en pratique. Il pourra aussi être utilisé auprès des futurs intervenants afin de parfaire leur formation concernant l'évaluation et l'intervention auprès des victimes de trauma.
