Murphy, Perpetua John Urrio, 2024-08-02 Whilst there is an extensive body of research exploring the barriers to gender equality and female empowerment in high income states there are far fewer systematic analyses within lower income settings This book draws on extensive empirical data to analyse gender mainstreaming and gender transformative actions in Tanzanian higher education The book maps the practical landscape of gender mainstreaming across 14 universities in Tanzania and the theoretical landscape of African theories of masculinities and femininities underpinning educational institutions and practices It then assesses the Gender Awareness and Transformation through Education project which was designed to support the development of gender expertise and capacities in research and education at one specific institution across both its administrative and academic units Current and future academics at Dar es Salaam University College of Education were trained in gender based research and education and a strategic plan was developed to guide in the establishment of a Gender Research Centre that will provide gender expertise in research and teaching to the College and over time to other HEIs nationally and regionally By bringing together real world insights from action based research the book demonstrates the impact of real time social change and gender transformation with implications both for Tanzania and beyond Bringing novel empirical insights and policy recommendations this book will be of interest to researchers and policy makers across the fields of gender studies education and African studies *Official Airline Guide*, 1972 *Mafanikio Theology* Tamie Davis, 2025-06-30 While the prosperity gospel is thought to be widespread in Africa there has been little scholarship exploring the variations in prosperity theologies across the continent or the impact of such theologies at a grassroots level In this study Dr Tamie Davis uses ethnographic methods including participant

observation semi structured interviews and focus groups to synthesize the prosperity mafanikio theology embraced by female graduates of the Tanzania Fellowship of Evangelical Students TAFES Taking an appreciative approach Davis examines mafanikio theology s hermeneutical framework and historical and cultural influences highlighting its commonalities and discontinuities with other prosperity theologies and bringing it into conversation with global models of holism In doing so she demonstrates that this indigenous Tanzanian theology offers a holistic alternative to profligate versions of the prosperity gospel by emphasizing both human flourishing and devotion to Christ Mafanikio theology thus integrates prosperity into a holistic life of discipleship emphasizing biblical grounding and encouraging hard work and perseverance *Annual Review of Comparative and International Education 2022* Alexander W.
