

Character Traits: Lesson Plan for Describing Characters in Stories

Read people and characters in stories close, what they are by their words and actions. Help students make the connection between a character trait and the words or actions that support it by using Character Cards.

Grade: 3rd

Subject: Reading

Learning Objectives

Students will be able to describe a character's appearance and character traits as demonstrated by actions in the story.

Materials and preparation

- White paper
- Gluestick or glue, fairy tale or folktale
- Character Traits reference sheet

Key terms:

- character trait

Activities

- Character Traits reference (DO-IT)

Introduction (5 minutes)

Begin by beginning the lesson, look at the Character Traits reference sheet, and add images that correspond with each card. These visual representations will allow students to better understand what each trait means.

- Introduce Cinderella or another chosen fairy tale to your class. Tell your students that they will be describing, and not just reading, characters in the story.
- Explain to your class that there are two parts to describing characters: their outward appearance, such as hair and eye color, and the aspect of their personality or traits as behaviors and their attitudes. Tell your class that words that describe someone's personality or behavior are called **character traits**.
- Ask your class to come up with some examples of character traits. Refer to the Character Traits reference sheet if necessary.

Explicit Instruction/Teacher modeling (10 minutes)

- Read your story aloud to the class, stopping once the first main character has been introduced.
- Ask your students to think in their heads what that character is like on the outside, and then share their descriptions with a partner. For example, students may describe Cinderella as "pretty" or that's how they imagine her.
- Encourage your students to focus on what this character says and does in the story, to determine what kind of person she is on the inside. Model thinking aloud when the character says or does something interesting. For example, Cinderella seems to be patient because she doesn't get angry with her stepmother when she takes her abuse.
- Encourage thinking aloud several more times during your reading, with more examples that illustrate the character's inner traits.
- After reading, take a blank sheet of paper and fold it in half to make a card. Tell students that they will be helping you describe one of the main characters in the story you just read. Write the character's name on the front of the card.
- Ask students to describe the character's appearance. As they call out descriptions, sketch the character's

A. Zama,Margaret Nalova Endeley,2023-02-24 *General Pedagogy* A Guide to Effective Teaching demystifies the scientific art of teaching by providing facts principles and concrete examples in real life situations such that neither the novice teacher who peruses it will stutter in front of students on the first day of school nor will the experienced teacher write and execute the same old lesson plans on that day The best teachers are those who show you where to look but don t tell you what to see is a popular quote attributed to Alexandra K Trenfor which aptly summarises the kind of teachers this book intends to produce when used as a teacher training resource Real teachers facilitate learning they do not simply tell learners the answers to their questions and concerns Accordingly the authors take the readers through well researched themes in the academic discipline of teaching wherein they present analyse and discuss pertinent issues Although they provide useful suggestions for teaching success the authors encourage teachers to interpret facts ideas and suggestions presented against the sociocultural contexts of their practice The materials are presented creatively while adding a personal touch intended to facilitate effective and efficient learning For coherence and better comprehension the book has been carefully crafted in eighteen chapters lodged in six parts The first part introduces the reader to the concepts of teaching and teaching effectiveness The theoretical underpinnings of these concepts are brought out in the second part which paves the way for the third part that describes generic teaching approaches strategies and methods Part four and five comprise essential teaching skills and teaching tools for the 21st century while part six wraps up with the transition from teacher training laboratories to classrooms in the real world The last two chapters intentionally prepare the teacher to overcome challenges of professional work in contemporary African classrooms **The Tyranny of the Meritocracy** Lani Guinier,2016-01-12 A fresh and bold argument for revamping our standards of merit and a clear blueprint for creating collaborative education models that strengthen our democracy rather than privileging individual elites Standing on the foundations of America s promise of equal opportunity our universities purport to serve as engines of social mobility and practitioners of democracy But as acclaimed scholar and pioneering civil rights advocate Lani Guinier argues the merit systems that dictate the admissions practices of these institutions are functioning to select and privilege elite individuals rather than create learning communities geared to advance democratic societies Having studied and taught at schools such as Harvard University Yale Law School and the University of Pennsylvania Law School Guinier has spent years examining the experiences of ethnic minorities and of women at the nation s top institutions of higher education and here she lays bare the practices that impede the stated missions of these schools Goaded on by a contemporary culture that establishes value through ranking and sorting universities assess applicants using the vocabulary of private highly individualized merit As a result of private merit standards and ever

increasing tuitions our colleges and universities increasingly are failing in their mission to provide educational opportunity and to prepare students for productive and engaged citizenship To reclaim higher education as a cornerstone of democracy Guinier argues that institutions of higher learning must focus on admitting and educating a class of students who will be critical thinkers active citizens and publicly spirited leaders Guinier presents a plan for considering democratic merit a system that measures the success of higher education not by the personal qualities of the students who enter but by the work and service performed by the graduates who leave Guinier goes on to offer vivid examples of communities that have developed effective learning strategies based not on an individual s merit but on the collaborative strength of a group learning and working together supporting members and evolving into powerful collectives Examples are taken from across the country and include a wide range of approaches each innovative and effective Guinier argues for reformation not only of the very premises of admissions practices but of the shape of higher education itself *The Detroit Educational Bulletin* ,1923 My Heart's at Home Jill Savage,2007-02-15 Founder and Executive Director of Hearts at Home Jill Savage explores the important role home plays in a family s journey With her personable humorous style Jill shares from her experience as a mother of five and from conversations with many other moms to offer practical ideas and motivation to create a home that is a safe place for a functional family to blossom community center that offers hospitality and compassion church where prayer and Scripture guide all members museum filled with a family s history stories and heritage school with lessons of virtue integrity and ethics This anchor book for Hearts at Home will extend beyond this valuable ministry to encourage all women to build the heart of their home on biblical principles and to raise a family that is strong loving and firmly standing on a foundation of faith
