

PRESCHOOL TEACHER INTERVIEW QUESTIONS AND ANSWERS

6. What teaching approaches do you use in your classroom?

Major approaches that I have always used in my classrooms and which I find highly useful are a combination of inquiry-based learning, discovery-based learning, and play- techniques. I find these super effective in reinforcing the holistic development of kids while stimulating their brains to make them academically competent. I also have experience employing Reggio Emilia activities and Montessori teaching approach in my classroom and I find it amazing in developing positive behavioral changes in kids. However, I am always open to adapting to new approaches as required by kids.

7. What does your classroom look like on a regular day? What activities do you implement in your classroom to make it more interesting and creative?

I have a degree of Master of Art in Early Childhood Education from the University of Cambridge and I am a certified childcare professional with an experience of over ten years. I have an internship experience under a senior preschool teacher and then I worked as a preschool teacher for 4 years at a local school, followed by working as a preschool teacher at a national school for the last six years. I have experience handling various roles and responsibilities of being a preschool teacher and I am currently looking for a new adventure to further refine my skills and gain new experiences.

8. How do you make your lesson plan more interesting and effective?

I find lesson plans great to foster academic, social, and mental abilities in kids. In my previous job, I developed various lesson plans that were suitable for kids with different learning levels and kept kids captivated and organized. I ensure to add engaging activities that are unique and brain-stimulating to keep children interested in learning. Additionally, I use colorful patterns and attractive visuals to retain the kid's attention and develop curiosity in them.

9. What according to you is success? How do you track the progress and success of the preschoolers?

I believe success is when my kids feel happy at the end of the day and content with their learning. They should feel they have learned something new and their curiosity has been satiated. That's what success is to me. To keep track of the progress of success in my students, I typically look at their behavioral progress and how well they are developing soft skills. Additionally, weekly tests give me an overview of their academic progress. However, I understand every school has its own system which they prefer to follow.

10. How do you handle the diverse needs of kids in your classroom?

First, I believe it's important to understand every child. What are their strengths, and weaknesses, how well do they learn in group settings, which teaching approach is most appropriate, and so on. Once I have a general idea of the needs of every child in my classroom, I prepare my lessons and ensure to employ customized instruction plans for kids who require additional attention. From my previous experience, I can say a combination of teaching approaches work best in diverse settings. For instance, I used to implement technology and regular lessons both to ensure kids not only learn but also practice enough to comprehend and retain it will.
