Classroom Management Sean B. Yisrael, 2012-02-15 Many teachers who work in urban schools find classroom management to be very problematic. Their university course work and training didn't prepare them for the heavy demands of being an urban school teacher. Urban educators need to be equipped with the knowledge and skills needed to effectively manage adverse behaviors and still deliver a quality education to all students. *Classroom Management: A Guide for Urban School Teachers* is designed to give educators practical strategies that will help them deal with the unique challenges faced by urban school teachers today. Whether the teacher is a novice teaching professional or an experienced veteran, he/she will be able to learn how to establish and maintain control over the classroom environment, effectively deal with the most extreme student misbehaviors, establish rapport with students and parents, and reduce the amount of students sent to the principal's office on referrals. After reading this book, teachers will be able to combat the negative forces that adversely affect the classroom setting and be able to concentrate on teaching and learning.

Li, 2017-01-12 This volume gives an up-to-date account of the language situation and social context in multilingual Hong Kong. After an in-depth interpretive analysis of various language contact phenomena, it shows why it is such a tall order for Hongkongers to live up to the Special Administrative Region government's language policy goalpost: biliteracy and trilingualism. A detailed contrastive analysis between Cantonese and a) English, b) Modern Written Chinese, and c) Putonghua helps explain the nature of the linguistic and acquisitional challenges involved. Economic forces and sociopolitical realities helped shape the mother tongue education or dual MoI streaming policy since September 1998. The book provides a critical review of the significant milestones and key policy documents from the early 1990s and outlines the concerns of stakeholders at the receiving end. Another MoI debate concerns the feasibility and desirability of teaching Chinese in Putonghua. TCP. Based on a critical review of the TCP literature and recent psycholinguistic and neuroscience research, the language in education policy implications are discussed, followed by a few recommendations. Hongkongers of South Asian descent saw their life chances curtailed as a result of the post-1997 changes in the language requirements for gaining access to civil service positions and higher education. Based on a study of 15 South Asian undergraduate students' prior language learning experiences, recommendations are made to help redress that social inequity problem. *Preparation Master CTET Paper 1 Book : Primary Teachers Class 1-5 (English Edition) - 24 Solved Papers (Previous Year Papers) with Free Access to Online Tests* EduGorilla Prep Experts,
