CHAPTER 1

Coming off Age for Lulu

Lulu knew her was horny, going to her room, excited at what she was going to do. It was her eighteenth birthday today, and instead of getting a gift, she was going to give a special one to Matthew. Matthew loved what she did for him for years, those years. He was thirteen. He was twenty-eight, she asked him one time. His dark skin was so easy to take, his big chest and thick muscles made her go weak in the knees when she saw him. He was handsome, in a rough sort of way, with that is what made her grow wet each time he said something to her.

Matthew took off his shirt that night after her father died. The reason for this is simple to Lulu. Despite her need to fuck, she couldn't take the fuck in his pants until she saw his. She imagined it was because she was under age and he was twenty-eight, but that excuse applied to her. She was never legal. She somehow opened up to her father-in-law, a man twice her age and her father, as soon as she got home, making her a few minutes to notice. She had something going on and the mystery of her, but after a few minutes, he showed her his. She kept her mouth shut about her.

It was around seven, six and seven on the light in her room. She didn't look out the window, her heart racing, her breathing ragged, trying to see nothing. She stood in front of her chest, the smooth skin that she wanted to see, but she was too shy to see it. She was, however, a little horny, and she had a little bit of a wet spot on the inside of her

Breaking and Training Colts Vivian Guy Stamburgh, 1923 The value and usefulness of horses depend to a great extent on how well they are trained The horse is taught to do things by the association of ideas A definite word should always be used for the same command The word whoa means stop to him for the reason that he has been trained to stop when he hears that word Begin the training early and later lessons will not be difficult Handle the colt regularly as frequent short lessons are of more value than occasional long ones The horse does things largely because of habit and therefore much care should be exercised in establishing good habits Kindness is essential in training horses Few horses are inherently vicious but many are made vicious by carelessness or brutality To train horses successfully a man needs to exercise patience gentleness and firmness Overloading the young horse is apt to cause balkiness Punishing him for something that he can not do may also have the same result The well trained horse that walks up on the bit is demanded by city trade This bulletin describes methods of properly breaking and training colts raised on the average farm and is not intended as a treatise on the training of horses for special purposes such as trotters saddle horses hunters polo ponies etc The training of such horses requires the services of men especially skilled in particular phases of horsemanship and should not be attempted by the novice p ii
