Mason     **Disenchantment, Skepticism, and the Early Modern Novel in Spain and France** Ann T.

Delehanty,2022-12-16 This volume examines five early modern novels from the seventeenth century in Spain and France as examples of literature as a form of skeptical inquiry Cervantes's Don Quijote Zayas's Desengaños amorosos Scarron's Roman comique Cyrano de Bergerac's L'Autre Monde and Mme de Lafayette's Zayde These early modern novels encourage readers to take a critical stance toward accepted beliefs through content that stages multiple encounters with the shockingly unfamiliar as well as through experiments in literary form especially the interpolated story At its broadest reach this study asserts the fundamental value of literature as a means of encouraging discernment recognizing the illusory and honing critical acuity In terms of the particularity of the historical moment the volume also identifies the early modern novel as uniquely able to represent the conflicting value spheres of early modernity because of its ability to present multiple voices and its fascination with conflicting vantage points Due to its interdisciplinary nature Disenchantment Skepticism and the Early Modern Novel in Spain and France appeals to literary scholars and intellectual historians of the early modern period in Europe as well as to advanced undergraduates and postgraduates studying the early novel intellectual history and philosophy of literature     *Solitude Versus Solidarity in the Novels of Joseph Conrad* Ursula Lord,1998 A structural thematic and

theoretical analysis of several selected novels of Thomas Hardy and Joseph Conrad based on ideas rooted in political theory sociology and philosophy The author explores fiction from the years 1885-1905 in terms of critical and theoretical paradigms established by 19th and 20th century thinkers such as Darwin Weber Arendt Mannheim Marx and Lukacs Annotation copyrighted by Book News Inc Portland OR     **The Science Fiction Dimensions of Salman Rushdie** Yael

Maurer,2014-01-30 This book focuses on the science fictional dimensions of Rushdie's later novels Fury The Ground Beneath Her Feet Shalimar the Clown and Luka and the Fire of Life and Rushdie's first unpublished novel The Antagonist to show how the author's oeuvre moves towards a more consistent engagement with science fiction as a generic form and an ideological investment The author demonstrates how Rushdie recreates personal and national histories in a science fictional setting and mode and contends that the failure of his first novel Grimus may have led Rushdie away from SF for some time although he returns to it with a much firmer conviction and a much stronger voice in his later novels showing his commitment to this imaginative form which he describes in Fury as providing the best popular vehicle ever devised for the novel of ideas and metaphysics The science fictional mode is the most appropriate vehicle for expressing these thematic and ideological concerns and the organizing feature of Rushdie's oeuvre The author rereads the later novels in light of recent critical engagement with SF as a vehicle for reimagining national histories and as a potentially subversive tool for social and political engagement in a fictional realm     *Conrad's Fiction as Critical Discourse* Richard Ambrosini,1991-07-26 Joseph

Conrad's comments about his works have commonly been dismissed as theoretically unsophisticated while the critical notions of James Woolf and Joyce have come to shape our understanding of the modern novel Richard Ambrosini's study of

Conrad's Fiction as Critical Discourse makes an original claim for the importance of his theoretical ideas as they are formed, tested and eventually redefined in *Heart of Darkness* and *Lord Jim*. Setting the narrator's discourse in these tales in the context of the dynamic interplay of Conrad's fictional with his non-fictional writings and of the transformations in his narrative forms, Ambrosini defines Conrad's view of fiction and the artistic ideal underlying his commitment as a writer in a new and challenging way. Conrad's innovative techniques as a novelist are shown in the continuity of his theoretical enterprise from the early search for an artistic prose and a personal novel form to the later dislocations of perspective achieved by manipulation of conventions drawn from popular fiction. This reassessment of Conrad's critical thought offers a new perspective on the transition from the Victorian novel to contemporary fiction.

**The Aesthetic Illusion in Literature and the Arts** Tomáš Kobližek, 2017-09-21 The notion of aesthetic illusion relates to a number of art forms and media. Defined as a pleasurable mental state that emerges during the reception of texts and artefacts, it amounts to the reader's or viewer's sense of having entered the represented world while at the same time keeping a distance from it. *Aesthetic Illusion in Literature and the Arts* is an in-depth study of the main questions surrounding this experience of art as reality. Beginning with an introduction providing historical background to modern discussions of illusion, it deals with a wide range of theoretical issues. The collection explores the nature and function of the aesthetic illusion as well as the role of affect and emotion, the implications of aesthetic illusion for the theory of fiction, the variable forms of aesthetic illusion and its relationship to other components of aesthetic response. *Aesthetic Illusion in Literature and the Arts* brings together a team of scholars from philosophy, literature and art and presents an interdisciplinary examination of a concept lying at the heart of contemporary aesthetics.

**Naturalism in American Fiction** John J. Conder, 2021-03-17 In this closely reasoned study, John J. Conder has created a new and more vital understanding of naturalism in American literature. Moving from the Hobbesian dilemma between causation and free will down through Bergson's concept of dual selves, Conder defines a view of determinism so rich in possibilities that it can serve as the inspiration of literary works of astonishing variety and unite them in a single, though developing, naturalistic tradition in American letters. At the heart of this book, beyond its philosophic discussion, is Conder's reading of key works in the naturalistic canon, beginning with Stephen Crane's *The Open Boat* and *The Blue Hotel*. The special character of determinism in Crane, Conder holds, is the source of his complexity and striking originality. He finds a stricter determinism in Norris's *McTeague*. In Dreiser, however, the naturalistic tradition develops toward a fusion of determinism and freedom in a single work, and this fusion in a different guise operates in Dos Passos's view of self in *Manhattan Transfer*. With Steinbeck's *The Grapes of Wrath*, the uniting of determinism and freedom finds its fullest realization in the concept of dual selves: one determined, one free. In Faulkner's *The Sound and the Fury* and *Absalom, Absalom!*, the concept of the dual self appears in its most complex form. The developments in the work of Steinbeck and Faulkner, Conder believes, bring the classic phase of American literary naturalism to a close.

illuminates a group of major literary works and revives a theoretic consideration of naturalism It thus makes a fundamental contribution to American studies
