Five Volumes of Spiritual

Wisdom Philosophical Library, 2012-09-11 A stunning collection of ancient wisdom featuring powerful insights from five of the world's most influential religions. The Wisdom of the Torah is an instruction in the central beliefs of three world religions: Judaism, Christianity, and Islam. But by observing the Torah or the Hebrew Bible as a collected work of multiple authors spanning generations, the modern reader can look beyond its fundamental instruction. In these works, readers find many lyrical and timeless reflections on what it means to have faith and to be a member of the human race. The Wisdom of the Talmud presents a thorough history and overview of the Talmud, the rabbinical commentary on the Torah that was developed in the Jewish academies of Palestine and Babylonia. From man's purpose and miracles to marriage and wellness to consciousness and community, the Talmud considers what it means to practice faith on a daily basis and through a changing world. In The Wisdom of the Koran, readers will discover a selection of key chapters such as The Night Journey and The Cave, footnotes to convey context and meaning, as well as several stories from Judeo-Christian history. This invaluable anthology is an excellent step toward greater understanding of one of the finest pieces of Arabic prose and the Muslim faith. The Wisdom of Muhammad is essential reading for anyone who wants to have a true understanding of Islam and offers a compelling examination of the life and sayings of the Prophet. Covering a diverse range of topics from marriage and civic charity to the individual's relationship to God and the afterlife, the Prophet's words dispel misconceptions about the history of the faith, its leader, and its core beliefs. The Wisdom of Buddha, drawn from the sacred books of Buddhism, reveals the insights and beliefs at the heart of the world's fourth largest religion. Covering the birth and death of the Buddha, as well as the major tenets of Buddhism, this collection offers a profound view of the Buddhist religion and its founder. These five volumes from

The Book Mahesh,2016-04-21 This book covers the teachings of a sixth century religious leader whose followers constitute the second largest religious group in the world in the present age The book is set as a first person narrative where the Prophet quotes his own words and offers the rationale for many of the guidelines in the times when they were delivered as also their validity in the present times Many of those preachings which were very relevant to usher in much needed socio cultural changes in the desert tribes of those ancient times may seem to be archaic and out of place today when the world and society have seen much advancement and achieved scientific and technological progress And yet since they are believed to be the words of God delivered through His chosen messenger the believers are in a constant intellectual crisis as they are unable to give them up totally nor are they able to accept them totally in the present context It is this dilemma that is the thread running through the book where many of the guidelines are compared with guidelines on the same subjects contained in ancient scriptures from other world religions most of which are more ancient than these sixth century teachings The reader is invited to read analyse and draw his own conclusions about these myriad topics which continue to interest and stimulate human curiosity and the quest for truth through all ages
