As monster theory highlights, monsters are cultural symbols guarding the borders that society creates to protect its values and norms. Adolescence is the time when one explores and aims at crossing borders to learn the rules of the culture that one will fit into as an adult. Exploring the roles of monsters in coming-of-age narratives and the need to confront and understand the monstrous, this work explores recent developments in the presentation of monsters such as the vampire, the zombie, and the man-made monster in maturation narratives, then moves on to discuss monsters inhabiting the psychic landscapes of child characters.
