The Bracero Program Interest Groups And Foreign Policy:

The Bracero Program Richard B. Craig, 2014-12-19 Long before Cesar Chavez and Chicano became commonly known the word bracero had established itself in the language of American politics The Mexican Farm Labor Program or bracero program as it came to be known was from its inception in 1942 a highly controversial issue At international national and subnational levels it remained the focal point of an intense interest group struggle This struggle and its group combatants provide the central concern of this study In the early 1940 s agribusiness interests had sought to contract Mexican laborers braceros for work on United States farms With the entry of the United States into World War II legislation was passed for contracting braceros on a large scale What was originally a wartime measure soon became an institution During twenty two years 4.2 million braceros were contracted The United States at the insistence of the Mexican government became a partner in the program ensuring that the braceros were provided housing set wages and other benefits The program was however detrimental to one group in the United States the native farmworker Not only was the bracero provided guarantees that the native could not demand but the bracero also got the native's job During the late forties and fifties organized labor gathered its forces in Congress to oppose the program Finally an administration favorable to the native farmworker threw its support behind the native laborer and through the Department of labor measures were passed that made it less attractive to hire foreign labor In the end the anti bracero forces won out in Congress and defeated extension of the Mexican Farm Labor program At the same time the United States government by setting the working standards for foreign workers brought about an improvement in the working conditions and wages of native farm laborers Besides the conflicts between domestic interests Craig examines the international conflicts and issues involved as well as the international agreements that were the basis of bracero contracting He discusses with perception the program's immediate and long range effects on Mexico His study analyzes and clarifies one of the most controversial domestic and international programs of the twentieth century

Gonzalez, 2017-07-05 While a few commentators have recognized the parallels of the guest worker programs for Mexican immigrants to the United States to the bracero policies early in the 20th century fewer still connect those policies to traditional forms of colonial labor exploitation such as that practiced respectively by the British and French colonial regimes in In Border Visions Jakub Kazecki, Karen A. Managed Migrations

Cristina Salinas, 2018-11-14 2020 National Association for Chicana and Chicano Studies NACCS Book Award Winner Honorable Mention Ramirez Family Award for Most Significant Scholarly Book Texas Institute of Letters 2019 Managed Migrations examines the concurrent development of a border agricultural industry and changing methods of border enforcement in the Rio Grande Valley of Texas during the past century Needed at one moment scorned at others Mexican agricultural workers have moved back and forth across the US Mexico border for the past century In South Texas Anglo growers dreams of creating a modern agricultural empire depended on continuous access to Mexican workers While this access was officially regulated by immigration laws and policy promulgated in Washington DC in practice the migration of Mexican labor involved daily on the ground negotiations among growers workers and the US Border Patrol In a very real sense these groups set the parameters of border enforcement policy Managed Migrations examines the relationship between immigration laws and policy and the agricultural labor relations of growers and workers in South Texas and El Paso during the 1940s and 1950s Cristina Salinas argues that immigration law was mainly enacted not in embassies or the halls of Congress but on the ground as a result of daily decisions by the Border Patrol that growers and workers negotiated and contested She describes how the INS devised techniques to facilitate high volume yearly deportations and shows how the agency used these enforcement practices to manage the seasonal agricultural labor migration across the border Her pioneering research reveals the great extent to which immigration policy was made at the local level as well as the agency of Mexican farmworkers who managed to maintain their mobility and kinship networks despite the constraints of grower

paternalism and enforcement actions by the Border Patrol **Deportation Nation** Dan Kanstroom, 2010-03-15 The danger of deportation hangs over the head of virtually every noncitizen in the United States In the complexities and inconsistencies of immigration law one can find a reason to deport almost any noncitizen at almost any time In recent years the system has been used with unprecedented vigor against millions of deportees We are a nation of immigrants but which ones do we want and what do we do with those that we don't These questions have troubled American law and politics since colonial times Deportation Nation is a chilling history of communal self idealization and self protection The post Revolutionary Alien and Sedition Laws the Fugitive Slave laws the Indian removals the Chinese Exclusion Act the Palmer Raids the internment of the Japanese Americans all sought to remove those whose origins suggested they could never become true Americans And for more than a century millions of Mexicans have conveniently served as cheap labor crossing a border that was not official until the early twentieth century and being sent back across it when they became a burden By illuminating the shadowy corners of American history Daniel Kanstroom shows that deportation has long been a legal tool to control immigrants lives and is used with increasing crudeness in a globalized but xenophobic world The ^AColor of America Has Changed Mark Brilliant, 2010-10-21 This book examines the Civil Rights Movement in the West in order to bring the West to the Civil Rights Movement In particular it explores the challenge that racial diversity in California posed for building a multiracial civil rights movement Mark Brilliant examines the state's crazy quilt Jim Crow style laws and legislation including fair employment practices old age pensions for non citizens fair housing school desegregation and bilingual education Discrimination in California was not only racial but was also affected by citizenship status perceptions of foreignness language issues agricultural vs industrial occupation and rural vs urban residence These different axes of discrimination pointed to different and sometimes conflicting avenues of legislative and legal redress
