Wells,2007 Pandemic and Crisis of Democracy André Duarte,2022-08-19 In this incisive book Andr Duarte examines the health crisis resulting from the COVID 19 pandemic and the contemporary crisis of democracy Reflecting on President Jair Bolsonaro s misgovernment of Brazil as evidenced by his political actions speeches and omissions from March 2020 to September 2021 and using concepts like biopolitics neoliberalism and necropolitics Duarte proposes three interrelated hypotheses to demonstrate Bolsonaro s sharp distrust of democracy First that Bolsonaro s rhetoric actions and omissions during the first year and a half of the pandemic revealed a dangerous mixture of biopolitical neoliberal and necropolitical governmentality strategies Second that the pandemic in Brazil intensified the damaging side effects against democracy brought by neoliberalism and biopolitics once the necropolitical vector assumed precedence And third that Bolsonaro s political agenda is either to revoke the Brazilian democracy by violent means or to implement a fa ade democracy by slowly distorting it from within blurring the differences between democracy and authoritarianism Conceptualizing democracy as power of the demos and not exclusively as a political regime organized around a definite set of political institutions Duarte argues that Bolsonaro s misgovernment of Brazil is related to his antidemocratic viewpoints Pandemic and Crisis of Democracy is an important book for researchers students and anyone concerned about the dangers that surround the democratic experience in the contemporary world Hearings ,1963 Hearings, Reports and Prints of the Joint Economic Committee United States. Congress. Joint Economic Committee,1963 **Discriminatory Ocean Freight Rates and the Balance of Payments** United States. Congress. Joint Economic Committee,1963 Considers effect of ocean freight rates on U S balance of payments **Latin American Civilization** Benjamin Keen,2019-03-05 The fourth edition of Latin American Civilization is a compact update of a classic book of readings that teachers and students of Latin American history have used and appreciated since its first appearance in 1955 Returning to the single volume format this edition combines the best of the old collection with new material on recent developments in Latin American politics and society Particular care has been taken to bring the chapters on the twentieth century up to date Among the new selections are pieces on the Church s role in the Nicaraguan revolution the Malvinas Falklands war the struggle for democracy in Argentina and Brazil and women s liberation in Cuba The great majority of selections are primary materials These personal narratives many translated by Dr Keen for this collection convey the flavor and spirit of a period more vividly than official documents and are generally better written Secondary works are used only when suitable contemporary material was not available The brief introductions and headnotes which provide students with background information on the authors and subject matter have been updated to reflect the best recent scholarship This lively entertaining and informative book is an excellent companion for all texts on Latin American history although its organization and outlook conform most closely to that of Keen and Wasserman s Short History of Latin America **The Economic Blockade** William Norton Medlicott,1952 Internal Combustion Edwin Black,2007-12-10 Internal Combustion is the compelling tale of corruption and manipulation that subjected the United States

and the world to an oil addiction that could have been avoided that was never necessary and that could be ended not in ten years not in five years but today Edwin Black award winning author of *IBM and the Holocaust* has mined scores of corporate and governmental archives to assemble thousands of previously uncovered and long forgotten documents and studies into this dramatic story Black traces a continuum of rapacious energy cartels and special interests dating back nearly 5 000 years from wood to coal to oil and then to the bicycle and electric battery cartels of the 1890s which created thousands of electric vehicles that plied American streets a century ago But those noiseless and clean cars were scuttled by petroleum interests despite the little known efforts of Thomas Edison and Henry Ford to mass produce electric cars powered by personal backyard energy stations Black also documents how General Motors criminally conspired to undermine mass transit in dozens of cities and how Big Oil Big Corn and Big Coal have subverted synthetic fuels and other alternatives He then brings the story full circle to the present day oil crises global warming and beyond Black showcases overlooked compressed gas electric and hydrogen cars on the market today as well as inexpensive all function home energy units that could eliminate much oil usage His eye opening calls for a Manhattan Project and a new Green Fleet Initiative for immediate energy independence will help energize society to finally take action Internal Combustion and its interactive Web site www.internalcombustionbook.com have already generated a much needed national debate It should be read by every citizen who consumes oil everyone Internal Combustion can change everything not by reinventing the wheel but by excavating it from where it was buried a century ago
