Pandemics are by their nature widespread indiscriminate and impossible to prevent How would your business fare if most of your workforce were incapacitated by an unexpected incident *Business Continuity and the Pandemic Threat* considers the corporate impact of pandemics and shows how best to prepare for and mitigate their effects The increase in commercial aviation and international travel means that pandemics now spread faster than ever before Seasonal flu pandemics zoonotic contagions such as Ebola swine flu and avian flu e g H5N1 and H7N9 and respiratory syndromes such as SARS and MERS have affected millions worldwide Add the ever present threat of terrorism and biological warfare and the possibility of large proportions of your workforce being incapacitated is a lot stronger than you might think You may well have prepared for limited business interruptions but how would your business fare if 50% or more of your employees including those you rely on to execute your
