The Great Famine Ciarán Ó Murchadha,2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades *Cities and Literature* Malcolm Miles,2018-10-03 This book offers a critical introduction to the relation between cities and literature fiction poetry and literary criticism from the late eighteenth to twenty first centuries It

examines examples of writing from Europe North America and post colonial countries juxtaposed with key ideas from urban cultural and critical theories Cities and Literature shows how literature frames real and imagined constructs and experiences of cities Arranged thematically each chapter offers a narrative which introduces a number of key thinkers and writers whose vision illuminates the prevailing idea of the city at the time The themes are extended or challenged by boxed cases of specific texts or images accompanied by short critical commentaries the structure provides readers with a map of the terrain enabling connections across time and place within manageable limits and offers elements of critical discussion to serve a growing number of university courses which involve the intersections of cities and literature This volume offers access to literature from an urban perspective for the social sciences and access to urbanism from a literary viewpoint It is an excellent resource for both undergraduate and postgraduate students in the fields of urban studies and English literature planning cultural and human geographies architecture cultural studies and cultural policy **The Communist Review** ,1922
