Navajo Blessingway Singer Frank Mitchell, 2003 This life history of a Navajo leader recorded in the 1960s and first published in 1977 is a classic work in the study of Navajo history and religious traditions A skillful meticulous and altogether praiseworthy contribution to Navajo studies Although the focus of Mitchell s autobiography is upon his role as a Blessingway singer there is much material here on Navajo history and culture in the late nineteenth and early twentieth centuries Mitchell attended the government school at Fort Defiance worked on the railroad in Arizona served as a handyman and interpreter at several trading posts and the Franciscan missions and later served as a tribal councilman in the 1930s and as a judge in the 1940s and 1950s His observations on these experiences are relevant to our understanding of contemporary Navajo life Lawrence C Kelly Western Historical Quarterly This book stands easily among the best of the native autobiographies Narrated by a thoughtful and articulate Navajo leader over a span of eighteen years this life history is brought into English with none of the selective romanticizing that has spoiled some books It is a superb job of bringing one culture ever closer to another Barre Tolken Western Folklore

North America Brad Olsen,2008-03-01 This revised and updated comprehensive travel guide examines North America s most sacred sites for spiritually attuned explorers Important archaeological geological and historical destinations from coast to coast are exhaustively examined from the weathered pueblos of the American Southwest and the medicine wheels of western Canada to Graceland and the birthplace of Martin Luther King Jr Histories and cultural contexts are objectively surveyed along with the latest academic theories and insightful metaphysical ruminations Detailed maps drawings and travel directions are also included Blood and Voice Maureen Trudelle Schwarz,2016-12-15 Adulthood in the Navajo world is marked by the onset of menstruation in females and by the deepening of the voice in males Accordingly young adults must accept responsibility over the powers manifest in blood and voice for women the forces that control reproduction and growth for men the powers of protection and restoration of order that come through maintaining Navajo oral tradition The maintenance of the latter tradition has long been held to be the function of the Navajo singer a role usually viewed as male But despite this longstanding assumption women can and do fill this role Drawing on interviews with seventeen Navajo women practitioners and five apprentices Maureen Trudelle Schwarz explicates women s role as ceremonial practitioners and shows that it is more complex than has previously been thought She examines gender differences dictated by the Navajo origin story details how women came to be practitioners and reveals their experiences and the strategies they use to negotiate being both woman and singer Women who choose careers as singers face complex challenges since some rules prohibit menstruating women from conducting ceremonies and others regarding sexual continence can strain marital relationships Additionally oral history places men in charge of all ceremonial matters Schwarz focuses on how the reproductive life courses of Navajo women influence their apprenticeships and practices to demonstrate how they navigate these issues to preserve time honored traditions Through the words of actual practitioners she shows how each woman brings her own unique life experience to the role While differing among individuals these experiences represent a

commitment to shared cultural symbols and result in a consensus that sustains social cohesion By showing the differences and similarities between the apprenticeship initiation and practice of men and women singers Blood and Voice offers a better understanding of the role of Navajo women in a profession usually viewed as a male activity and of the symbolic construction of the self in Navajo culture It also addresses classic questions concerning the sexual division of labor menstrual taboos gender stereotypes and the tension between tradition and change that will enlighten students of other cultures **Ethical**

cultural authenticity and storytelling signification and meaning Regardless of discipline academic ethnographers who conducted their field work research during the twentieth century were trained in the accepted scientific methods and theories of the time that prescribed observation objectivity and evaluative distance In contradistinction to such prescribed methods regarding the ethnographic work conducted among Native Americans it turns out that the intersubjectively relational work of women both ethnographers and the Indigenous storytellers with whom they worked has produced far more reliably factual historically accurate and tribally specific Indigenous autobiographies than the more scientifically objective approaches of most of the male ethnographers This volume provides a close lens to the work of a number of women ethnographers and Native American women storytellers to elucidate the effectiveness of their relational methods Through a combined rhetorical and literary analysis of these ethnographies we are able to differentiate the products of the women s working relationships By shifting our focus away from the surface level textual reading that largely approaches the texts as factually informative documents literary analysis provides access into the deeper levels of the storytelling that lies beneath the surface of the edited texts Non Native scholars and editors such as Franc Johnson Newcomb Ruth Underhill Nancy Lurie Julie Cruikshank and Noel Bennett and Native storytellers and writers such as Grandma Klah Mar a Chona Mountain Wolf Woman Mrs Angela Sidney Mrs Kitty Smith Mrs Annie Ned and Tiana Bighorse help us to understand that there are ways by which voices and worlds are more and less disclosed for posterity The results vary based upon the range of factors surrounding their production but consistent across each case is the fact that informational accuracy is contingent upon the the degree of mutual respect and collaboration in the women s working relationships And it is in their pioneering intersubjective methodologies that the work of these women deserves far greater attention and approbation
