Expelling Public Schools John Arena,2023-06-20 Exploring the role of identitarian politics in the privatization of Newark s public school system In *Expelling Public Schools* John Arena explores the more than two decade struggle to privatize public schools in Newark New Jersey a conflict that is raging in cities across the country from the vantage point of elites advancing the pro privatization agenda and their grassroots challengers Analyzing the unsuccessful effort of Cory Booker Newark s leading pro privatization activist and mayor to generate popular support for the agenda and Booker s rival and ultimate successor Ras Baraka s eventual galvanization of the charter movement Arena argues that Baraka s black radical politics cloaked a revanchist agenda of privatization *Expelling Public Schools* reveals the political rise of Booker and Baraka their one time rivalry and subsequent alliance and what this particular case study illuminates about contemporary post civil rights Black politics Ultimately *Expelling Public Schools* is a critique of Black urban regime politics and the way in which antiracist messaging obscures real class divisions interests and ideological diversity

IT Project Management: A Geek's Guide to Leadership Byron A. Love,2016-10-04 This book s author Byron Love admits proudly to being an IT geek However he had found that being an IT

geek was limiting his career path and his effectiveness During a career of more than 31 years he has made the transition from geek to geek leader He hopes this book helps other geeks do the same This book addresses leadership issues in the IT industry to help IT practitioners lead from the lowest level Unlike other leadership books that provide a one size fits all approach to leadership this book focuses on the unique challenges that IT practitioners face IT project managers may manage processes and technologies but people must be led The IT industry attracts people who think in logical ways analytical types who have a propensity to place more emphasis on tasks and technology than on people This has led to leadership challenges such as poor communication poor relationship management and poor stakeholder engagement Critical IT projects and programs have failed because IT leaders neglect the people component of people process and technology Communications skills are key to leadership This book features an in depth discussion of the communications cycle and emotional intelligence providing geek leaders with tools to improve their understanding of others and to help others understand them To transform a geek into a geek leader this book also discusses Self leadership skills so geek leaders know how to lead others by leading themselves first Followership and how to cultivate it among team members How a geek leader's ability to navigate disparate social styles leads to greater credibility and influence Integrating leadership into project management processes The book concludes with a case study to show how to put leadership principles and practices into action and how an IT geek can transform into an effective IT geek leader

The Lines Between Us Lawrence Lanahan, 2019-05-21 A masterful narrative with echoes of *Evicted* and *The Color of Law* that brings to life the structures policies and beliefs that divide us Mark Lange and Nicole Smith have never met but if they make the moves they are contemplating Mark a white suburbanite to West Baltimore and Nicole a black woman from a poor city neighborhood to a prosperous suburb it will defy the way the Baltimore region has been programmed for a century It is one region but separate worlds And it was designed to be that way In this deeply reported revelatory story duPont Award winning journalist Lawrence Lanahan chronicles how the region became so highly segregated and why its fault lines persist today Mark and Nicole personify the enormous disparities in access to safe housing educational opportunities and decent jobs As they eventually pack up their lives and change places bold advocates and activists in the courts and in the streets struggle to figure out what it will take to save our cities and communities Put money into poor segregated neighborhoods Make it possible for families to move into areas with more opportunity *The Lines Between Us* is a riveting narrative that compels reflection on America's entrenched inequality and on where the rubber meets the road not in the abstract but in our own backyards Taking readers from church sermons to community meetings to public hearings to protests to the Supreme Court to the death of Freddie Gray Lanahan deftly exposes the intricacy of Baltimore's hypersegregation through the stories of ordinary people living it shaping it and fighting it day in and day out This eye opening account of how a city creates its black and white places its rich and poor spaces reveals that these problems are not intractable but they are designed to endure

The City Is the Factory Miriam Greenberg, Penny Lewis, 2017-06-06 Urban public spaces from the streets and squares of Buenos Aires to Zuccotti Park in New York City have become the emblematic sites of contentious politics in the twenty first century As the contributors to The City Is the Factory argue this resurgent politics of the square is itself part of a broader shift in the primary locations and targets of popular protest from the workplace to the city This shift is due to an array of intersecting developments the concentration of people profit and social inequality in growing urban areas the attacks on and precarity faced by unions and workers movements and the sense of possibility and actual leverage afforded by local politics and the tactical use of urban space Thus the city from the town square to the banlieu is becoming like the factory of old a site of production and profit making as well as new forms of solidarity resistance and social reimagining We see examples of the city as factory in new place based political alliances as workers and the unemployed find common cause with right to the city struggles Demands for jobs with justice are linked with demands for the urban commons from affordable housing to a healthy environment from immigrant rights to urban citizenship and the right to streets free from both violence and racially biased policing The case studies and essays in The City Is the Factory provide descriptions and analysis of the form substance limits and possibilities of these timely struggles Contributors Melissa Checker Queens College and the Graduate Center of the City University of New York Daniel Aldana Cohen University of Pennsylvania Els de Graauw Baruch College City University of New York Kathleen Dunn Loyola University Chicago Shannon Gleeson Cornell University Miriam Greenberg University of California Santa Cruz Alejandro Grimson Universidad de San Mart n Argentina Andrew Herod University of Georgia Penny Lewis Joseph S Murphy Institute for Worker Education and Labor Studies City University of New York Stephanie Luce Joseph S Murphy Institute for Worker Education and Labor Studies City University of New York Lize Mogel artist and coeditor of An Atlas of Radical Cartography Gretchen Purser Maxwell School of Citizenship and Public Affairs Syracuse University

Reeves,2018-05-08 Dream Hoarders sparked a national conversation on the dangerous separation between the upper middle class and everyone else Now in paperback and newly updated for the age of Trump Brookings Institution senior fellow Richard Reeves is continuing to challenge the class system in America In America everyone knows that the top 1 percent are the villains The rest of us the 99 percent we are the good guys Not so argues Reeves The real class divide is not between the upper class and the upper middle class it is between the upper middle

class and everyone else The separation of the upper middle class from everyone else is both economic and social and the practice of opportunity hoarding gaining exclusive access to scarce resources is especially prevalent among parents who want to perpetuate privilege to the benefit of their children While many families believe this is just good parenting it is actually hurting others by reducing their chances of securing these opportunities There is a glass floor created for each affluent child helped by his or her wealthy stable family That glass floor is a glass ceiling for another child Throughout *Dream Hoarders* Reeves explores the creation and perpetuation of opportunity hoarding and what should be done to stop it including controversial solutions such as ending legacy admissions to school He offers specific steps toward reducing inequality and asks the upper middle class to pay for it Convinced of their merit members of the upper middle class believes they are entitled to those tax breaks and hoarded opportunities After all they aren't the 1 percent The national obsession with the super rich allows the upper middle class to convince themselves that they are just like the rest of America In *Dream Hoarders* Reeves argues that in many ways they are worse and that changes in policy and social conscience are the only way to fix the broken system

U.S. Security Cooperation with Africa Robert J. Griffiths, 2016-04-14 As Africa's strategic importance has increased over the past decade and a half United States security cooperation with the continent has expanded The most visible dimension of this increased engagement was the establishment of the U S Military Command for Africa AFRICOM Some critics are skeptical of AFRICOM's purpose and see the militarization of U S Africa policy while others question its effectiveness Recognizing the link between development and security AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U S government stakeholders Nevertheless AFRICOM's effort to combine security and development faces formidable conceptual and operational challenges in trying to ensure both American and African security interests The human security perspective's emphasis on issues that go beyond traditional state centered security to include protecting individuals from threats of hunger disease crime environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy At the same time the threat of violent extremism heavily influences U S security cooperation with Africa In this examination of the context of U S African security relations Robert J Griffiths outlines the nature of the African state traces the contours of African conflict surveys the post independence history of U S involvement on the continent and discusses policy organization and implementation and the impact of U S experiences in Iraq and Afghanistan on the U S Africa security relationship Africa's continuing geostrategic significance the influence of China and other emerging markets in the region and America's other global engagements especially in light of U S fiscal realities demonstrate the complexity of U S African security cooperation
