The Brief Presence Of An Absent Granny:

The Presence of the Absent Carlos E. Sluzki, 2015-06-26 Where live our most cherished or painful memories Where do our beloved or dreaded exist when departed In the gray zone between our self and our world they can exist as internal reminiscences for some and striking images for others individually or collectively perceived and interacted vividly or as tenuous presences This book familiarizes us with six examples of individuals and families in therapy who live and interact with the presence of their absent pivotal people in their lives who either died or disappeared but are still there It familiarizes us with their plight in a tender compassionate style describing in detail interviews and therapeutic transformations and in several cases follow ups as well as echoes of those processes It teaches us to respect those presences as well as how to help families and individuals treasure them and in many cases to let them go Written in a vivid intense language The Presence of the Absent offers a marvelous insight into these processes that may prove transformative for the therapist both family and individually oriented as well as enlightening to the general public

Extraterritorialities in Occupied Worlds Exterritory Project,2016 The concept of extraterritoriality designates certain relationships between space law and representation This collection of essays explores contemporary manifestations of extraterritoriality and the diverse ways in which the concept has been put to use in various disciplines Some of the essays were written especially for this volume others are brought here together for the first time The inquiry into extraterritoriality found in these essays is not confined to the established boundaries of political conceptual and

representational territories or fields of knowledge rather it is an invitation to navigate the margins of the legal juridical and the political but also the edges of forms of representation and poetics Within its accepted legal and political contexts the concept of extraterritoriality has traditionally been applied to people and to spaces In the first case extraterritorial arrangements could either exclude or exempt an individual or a group of people from the territorial jurisdiction in which they were physically located in the second such arrangements could exempt or exclude a space from the territorial jurisdiction by which it was surrounded The special status accorded to people and spaces had political economic and juridical implications ranging from immunity and various privileges to extreme disadvantages In both cases a person or a space physically included within a certain territory was removed from the usual system of laws and subjected to another In other words the extraterritorial person or space was held at what could be described as a legal distance In this respect the concept of extraterritoriality presupposes the existence of several competing or overlapping legal systems It is this notion of being held at a legal distance around which the concept of extraterritoriality may be understood as revolving

Cuba and the Fall

Eduardo González, 2010-08-05 The literature of Cuba argues Eduardo González in this new book takes on quite different features depending on whether one is looking at it from the inside or from the outside a view that in turn is shaped by official political culture and the authors it sanctions or by those authors and artists who exist outside state policies and cultural politics González approaches this issue by way of two twentieth century writers who are central to the canon of gay homoerotic expression and sensibility in Cuban culture Jos Lezama Lima 1910 1976 and Reinaldo Arenas 1943 1990 Drawing on the plots and characters in their works González develops both a story line and a moral tale revolving around the Christian belief in the fall from grace and the possibility of redemption that bring the writers into a unique and revealing interaction with one another The work of Lezama Lima and Arenas is compared with that of fellow Cuban author Virgilio Piñera 1912

1979 and in a wider context with the non Cuban writers John Milton Nathaniel Hawthorne William Faulkner John Ruskin and James Joyce to show how their themes get replicated in Gonz lez s selected Cuban fiction Also woven into this interaction are two contemporary films The Devil s Backbone 2004 and Pan s Labyrinth 2007 whose moral and political themes enhance the ethical values and conflicts of the literary texts Referring to this eclectic gathering of texts Gonz lez charts a cultural course in which Cuba moves beyond the Caribbean and into a latitude uncharted by common words beyond the tyranny of place
