Horror Comics in Black and White Richard J. Arndt, 2013-01-21 In 1954 the comic book industry instituted the Comics Code a set of self regulatory guidelines imposed to placate public concern over gory and horrific comic book content effectively banning genuine horror comics Because the Code applied only to color comics many artists and writers turned to black and white to circumvent the Code s narrow confines With the 1964 Creepy 1 from Warren Publishing black and white horror comics experienced a revival continuing into the early 21st century an important step in the maturation of the horror genre within the comics field as a whole This generously illustrated work offers a comprehensive history and retrospective of the black and white horror comics that flourished on the newsstands from 1964 to 2004 With a catalog of original magazines complete credits and insightful analysis it highlights an important but overlooked period in the history of comics

Heuristic Algorithms for Hard Optimization Éric D. Taillard,2022-10-29 This open access book demonstrates all the steps required to design heuristic algorithms for difficult optimization The classic problem of the travelling salesman is used as a common thread to illustrate all the techniques discussed This problem is ideal for introducing readers to the subject because it is very intuitive and its solutions can be graphically represented The book features a wealth of illustrations that allow the concepts to be understood at a glance The book approaches the main metaheuristics from a new angle deconstructing them into a few key concepts presented in separate chapters construction improvement decomposition randomization and learning methods Each metaheuristic can then be presented in simplified form as a combination of these concepts This approach avoids giving the impression that metaheuristics is a non formal discipline a kind of cloud sculpture Moreover it provides concrete applications of the travelling salesman problem which illustrate in just a few lines of code how to design a new heuristic and remove all ambiguities left by a general framework Two chapters reviewing the basics of combinatorial optimization and complexity theory make the book self contained As such even readers with a very limited background in the field will be able to follow all the content *Affect Imagery Consciousness* Silvan S. Mackenzie, Laura Alba-Juez, 2019-03-15 Interest in human emotion no longer equates to unscientific speculation 21st century humanities scholars are paying serious attention to our capacity to express emotions and giving rigorous explanations of affect in language We are unquestionably witnessing an emotional turn not only in linguistics but also in other fields of scientific research Emotion in Discourse follows from and reflects on this scholarly awakening to the world of emotion and in particular to its intricate relationship with human language The book presents both the state of the art and the latest research in an effort to unravel the various workings of the expression of emotion in discourse It takes an interdisciplinary approach for emotion is a multifarious phenomenon whose functions in language are enlightened by such other disciplines as psychology neurology or communication studies The volume shows not only how emotion manifests at different linguistic levels but also how it relates to aspects like linguistic appraisal emotional intelligence or humor as well as covering its occurrence in various genres including scientific discourse As such the book contributes to an emerging interdisciplinary field which could be labeled emotionology transcending previous linguistic work and providing an updated characterization of how emotion functions in human discourse Reconsidering Dementia Narratives Rebecca Bitenc, 2019-07-05

Reconsidering Dementia Narratives explores the role of narrative in developing new ways of understanding interacting with and caring for people with dementia It asks how the stories we tell about dementia in fiction life writing and film both reflect and shape the way we think about this important condition Highlighting the need to attend to embodied and relational aspects of identity in dementia the study further outlines ways in which narratives may contribute to dementia care while disputing the idea that the modes of empathy fostered by narrative necessarily bring about more humane care practices This cross medial analysis represents an interdisciplinary approach to dementia narratives which range across auto biography graphic narrative novel film documentary and collaborative storytelling practices The book aims to clarify the limits and affordances of narrative and narrative studies in relation to an ethically driven medical humanities agenda through the use of case studies Answering the key question of whether dementia narratives align with or run counter to the dominant discourse of dementia as loss of self this innovative book will be of interest to anyone interested in dementia studies ageing studies narrative studies in health care and critical medical humanities Living With the Other Avi Sagi, 2019-01-13 The book

grapples with one of the most difficult questions confronting the contemporary world the problem of the other which includes ethical political and metaphysical aspects A widespread approach in the history of the discourse on the other systematically formulated by Emmanuel Levinas and his followers has invested this term with an almost mythical quality the other is everybody else but never a specific person an abstraction of historical human existence This book offers an alternative view turning the other into a real being through a carefully described process involving two dimensions referred to as the ethic of

loyalty to the visible and the ethic of inner retreat Tracing the course of this process in life and in literature the book presents a broad and lucid picture intriguing to philosophers and also accessible to readers concerned with questions touching on the meaning of life ethics and politics and particularly relevant to the burning issues surrounding attitudes to immigrants as others and to the relationship with God the ultimate other **Language and Politics** John E. Joseph, 2006-06-21 Language this book argues is political from top to bottom whether considered at the level of an individual speaker's choice of language or style of discourse with others where interpersonal politics are performed or at the level of political rhetoric or indeed all the way up to the formation of national languages By bringing together this set of topics and highlighting how they are interrelated the book will function well as a textbook on any applied or sociolinguistic course in which some or all of these various aspects of the politics of language are covered Navigating Children's Literature through Controversy, 2023-09-20 This collection focuses on the specific issue of controversy as a cross sectional aspect of contemporary children's and YA literature in a spectrum stretching from national experiences to explore the impact of specific historical economic and social environments on the rise of controversies to international exchanges in which controversies are generated specifically by the interactions between cultures to international contexts that deal with controversies relevant on a global scale By adopting controversy as an adjustable lens for a joined consideration of literary themes narrative or aesthetic solutions translation choices publishing and marketing decisions and discursive practices the volume establishes a diversified collection of chapters that offers new insight into functions of children's and YA literature in contemporary culture The Publishers Weekly, 1928 *Academy, with which are Incorporated Literature and the English Review*, 1902 Too Many Losing Heroines! (Light Novel) Vol. 4 Takibi Amamori, 2025-04-24 It's one thing for Tsukinoki Koto's BL fanfiction to be confiscated by the student council but it's another when it depicts a steamy romance between Nukumizu and a gender bent version of the student council president Now the vice president is threatening to hand it over to a teacher and the whole lit club will be held responsible Will these losing heroines ever get a break A hilarious rom com that's now a hit anime *The Metamorphoses of Kinship* Maurice Godelier, 2012-03-03 With marriage in decline divorce on the rise the demise of the nuclear family and the increase in marriages and adoptions among same sex partners it is clear that the structures of kinship in the modern West are in a state of flux In *The Metamorphoses of Kinship* the world renowned anthropologist Maurice Godelier contextualizes these developments surveying the accumulated experience of humanity with regard to such phenomena as the organization of lines of descent sexuality and sexual prohibitions In parallel Godelier studies the evolution of Western conjugal and familial traditions from their roots in the nineteenth century to the present The conclusion he draws is that it is never the case that a man and a woman are sufficient on their own to raise a child and nowhere are relations of kinship or the family the keystone of society Godelier argues that the changes of the last thirty years do not herald the disappearance or death agony of kinship but rather its remarkable metamorphosis one that ironically is
