Saints and Scamps Steven M. Cahn, 2010-10-16 Saints and Scamps has been widely acclaimed as one of the best academic ethics books in print In its 25th anniversary edition Steven M Cahn has updated and expanded upon his critical look at the duties and responsibilities of college professors presenting us with a masterfully decisive and learned probe into the ethical standards and practices of the academic world and bringing Saints and Scamps to a new generation Cahn discusses every issue from grades to degree requirements from tenure to the ethics of teaching For Cahn being a professor is so much more than research and scholarship it is also about being a good teacher and shepherding in the next generation of students He shows us what makes a wonderful professor and what constitutes professorial malpractice and he does so with a wit and charm that is both entertaining and convincing This is not just a book for college

professors but a book that should be read by parents students school administrators and anyone interested in what teachers do and how they should do it In this new edition Cahn continues to do what he has done so brilliantly in the past he shows us the ethical guidelines that every professor should follow **Puzzles & Perplexities** Steven M. Cahn,2007-01-01 A revised edition of Steven Cahn s book of short philosophical essays **The LASIK Handbook** Robert S. Feder,2013-03-26 The LASIK Handbook A Case Based Approach focuses on the approach to the patient and the planning of surgery rather than the technology The beginning refractive surgeon is led through a series of cases in a progression from simple to more complex decision making Surgical planning and management of complications are taught in a manner that is commonly used in contemporary medical student training providing cases that mimic real world situations New to this edition are more than 25 new cases to bring the total to over 100 A companion website provides surgical videos and an interactive online question bank for self assessment All chapters are completely updated and new separate chapters have been on the new technologies in corneal topography mechanical microkeratomes femtosecond lasers and excimer lasers and International Perspectives
