Hassenstab,2015-01-01 For some legal philosophers if a law is procedurally correct enacted in ways constitutionally recognised and agreed upon then the content is of no significance It is a good law no matter what it

does or justifies The question of one's consent or opposition to any particular law is extraneous to the legality and is regarded merely as a political matter The assumption is that a certain procedure and logic in law creation has taken place and the law can be altered by a change in political leaders in a subsequent political election However this view and assumption obscure an uncomfortable fact Some laws can be bad or immoral Critical legal theory suggests that there are often two or more sets of laws and it makes no difference if Lady Justice is blindfolded or not Laws change in the process of history in part because societal norms change As common understandings of morality evolve law adapts itself to the new moral environment Norms can change slowly or rapidly even within a lifetime This book examines both social and legal norms and theories of how they are both created Christine M Hassenstab investigates how laws on sterilization birth control and abortion were created by focusing on the act of legislation how the law was driven by scientific and social norms during the first and closing decades of the 20th century in the USA especially in the state of Indiana and Norway The primary focus of *Body Law* and the *Body of Law* is the sociology of law and how and why the law changes The author develops the notion *body law* for reproductive policies and uses sociological theories to untie the various strands of social history and legal history and looks at two cases of legislation The book is divided into two main sections The first examines eugenic laws in the USA state of Indiana and Norway during the first decades of 20th century The second part is about the birth control and abortion debate in both countries throughout the late 1960s and 1970s Christine M Hassenstab is a lawyer and sociologist She served as a criminal defense attorney for 15 years 1987-2001 in Seattle Washington Currently she is an adviser in the EU Grants Office at the Norwegian University of Science and Technology in Trondheim Norway

The Body as Property Sandra Jacobs, 2014-04-24

The Body As Property indicates that physical disfigurement functioned in biblical law to verify legal property acquisition when changes in the status of dependents were formalized It is based on the reality the cuneiform script in particular was developed in Sumer and Mesopotamia for the purpose of record keeping to provide legal proof of ownership where the inscription of a tablet evidenced the sale or transfer of property Legitimate property acquisition was as important in biblical law where physical disfigurements marked dependents in a similar way that the veil or the head covering identified a wife or concubine in ancient Assyrian and Judean societies This is primarily substantiated in the accounts of prescriptive disfigurements namely circumcision and the piercing of a slave's ear both of which were required only when a son or slave was acquired permanently It is further argued that legal entitlement was relevant also to the punitive disfigurements recorded in Exodus 21:22-24 and Deuteronomy 25:11-12 where the physical violation of women was of concern solely as an infringement of male property rights
