The Business Of Sex:

The Business of Sex Laxmi Murthy ,Meena Saraswathi Seshu,2014-04-01 Mainstream feminist discourse has failed to fully engage with commercial sex work In a series of groundbreaking previously unpublished essays *The Business of Sex* corrects this lacuna Moving beyond the traditional feminist focus on slavery and trafficking HIV AIDS and other health issues the contributors to this volume engage fully with the political and theoretical implications of sex work Dismissing old antagonisms they argue that feminism thanks to its role in revolutionizing perspectives on sexuality and labour is a natural ally for the sex workers rights movement In the process these innovative scholars provocatively critique the dominant moral paradigm of heterosexual monogamy which has created a pervasive victim discourse and limited our understanding of sex work s complex realities Drawing on first hand stories from sex workers this volume gives voice to newly articulated movements such as whore feminism and queer feminism feminisms that have the potential to move discussions about sex work onto new and fruitful terrain Published by Zubaan

Nothing Personal Donald McRae,1992-01 *Athenian Prostitution* Edward E. Cohen,2015-12-01 *Athenian Prostitution* is a pioneering study that examines the sale of sex in classical Athens from a commercial rather than from a cultural or moral perspective

The Business of Sex Jody Hanson,2007 *The Business of Sex* Sex is a business For a prostitute it is a way of making a living for a madam it is a services industry enterprise for a stripper it is creating an illusion for a dominatrix it is maintaining control for a consort it is getting paid for what he might do anyway This collection of interviews takes the reader into the ordinary lives of people who work in the sex industry Their stories are told in their own words offering an insight into the world where sex is a business Jody Hanson has written extensively on her sex industry research in eight countries She is a founding member of the Sex Worker Rights Action Coalition

All the Brains in the Business Kate Lanz,Paul Brown,2019-11-02 The power of gender difference not gender equality is a secret source for success Some smart businesses are starting to wake up to this fact This book explores why and how Properly valuing brain gender diversity in the workplace is one of the biggest and largely untapped sources of competitive advantage for modern businesses Recent advances in neuroscience provide the key to unlocking it Modern research shows that there are gender based differences in the brain it s just not as simple as a binary between a male brain and female brain In fact our brains are like a mosaic where many of the tiles are available in thousands of shades on a spectrum between pink and blue The problem is that our workplaces tend to be governed by structures processes and cultures that are practically pure blue All the brains in the business that are elsewhere on the spectrum cannot thrive as they might so sources of productivity creativity and agility go untapped Anyone who manages people needs to understand how the brain works and the impact it has on how people work together as teams Anyone who wants to unlock the talent and productivity of all of their people needs to understand how recent findings around male and female type brains should shape the way they manage Leading applied neuroscientists and international corporate coaches Kate Lanz and Paul

Brown show you why and how to access all the brains in your business Sex Work Teela Sanders,2005 Sex Work describes how women create complex psychological and emotional techniques to maintain their sanity while selling sex and explains how the indoor sex markets in Britain have a distinct occupational culture with a set of social norms code of conduct and moral hierarchies **The Business of Women** Melanie Buddle,2011-01-01 In the past Western women inhabited a conceptual space divorced from the world of business Historians have consequently tended to overlook the experiences of women entrepreneurs Who were these women and how were they able to justify their work outside the home The Business of Women explores the world of women entrepreneurs in early twentieth century British Columbia Contrary to expectation the typical businesswoman was not unmarried or particularly rebellious but a woman who reconciled entrepreneurship with her femininity and her identity as a wife mother or widow The entrepreneurial woman was the product of a frontier ethos in British Columbia that translated into higher rates of marriage for women and more married women working outside the home than in any other province in Canada Like men they worked to support their families **Sex in Cyberspace** Sarah Earle,Keith Sharp,2016-04-01 Sex in Cyberspace offers a bold and provocative yet sensitively written account of an under investigated area of sociological enquiry While there is a considerable amount of research documenting the experiences of sex workers very little data exists on their male clientele The first empirically based volume on the experiences of men who pay for sex this work presents a significant new source of data The book is based upon an extensive study of on line forums in which both the purchasers of sexual services and the workers themselves can exchange information and views information which is otherwise extremely difficult to obtain Sarah Earle and Keith Sharp argue that such sites represent a significant change in the social organization of sex work and those who seek and use the services of sex workers Shedding new light on men s sexual identity Sex in Cyberspace makes a major contribution to the study of sexuality *Big Bang The Business of Sex* , *Sex: Untold Stories* Dr. Messeret Assefa, The purpose of this book is to capture an insiders view on sex work in Ethiopia s capital Addis Ababa While most of the case stories focus on female sex workers it also contains stories of promiscuous sex e g pre marital multiple sexual partnerships and extra marital affairs university students civil servants older women and married partners Nonetheless the reader will readily and pleasantly learn more about the sex worker s position than is known to the average non reader If my labors induce the concerned reader to improve the appalling sex workers life circumstances I trust s he will become a solution seeker and master of much more gender activist than the ordinary citizen This book is indeed a legacy which I bequeath to everyone concerned to help sex workers stop working out their own death

Business, Not Politics Katherine Sender,2005-01-05 In a hard hitting book that refutes conventional wisdom Katherine Sender explores the connection between the business of marketing to gay consumers and the politics of gay rights and identity She disputes some marketers claims that marketing appeals to gay and lesbian consumers are a matter of business not politics and that the business of gay marketing can be considered independently of the politics of gay rights identity and

visibility She contends that the gay community is not a preexisting entity that marketers simply tap into rather it is a construction an imagined community formed not only through political activism but also through a commercially supported media She argues that marketing has not only been formative in the constitution of a GLBT community and identity but also has had significant impact on the visibility of gays and lesbians

Quitting the Sex Trade Amber Horning, 2021-05-13 This anthology of original research studies focuses on why and how sex workers and pimps quit the sex trade There is an extensive literature on desistance with different theories explaining why people quit crime However with a few notable exceptions researchers to date have not focused on desistance among pimps and sex workers These studies explore a spectrum of quitting the sex trade from voluntarily stopping drifting and retiring to intervention based or coerced stopping due to influences and impositions by programs and or by specialized courts This book provides insight into the meaning of this work how people in the sex trade view their engagement in licit illicit spheres and it will inform providers who interface with people from these communities regarding how to support desistance Further this book may help those engaged in emerging topics related to the sex trade including 1 global trends in sex trade decriminalization and or human trafficking criminalization 2 the recent emergence of human trafficking intervention courts in the USA and 3 the development and impact of new laws policies and intervention programs designed to reduce human trafficking globally regionally country level and or more localized efforts to support desistance among participants in the sex trade The book will be of interest to academics researchers and advanced students of Criminology Sociology Law Policy and Psychology It was originally published as a special issue in the journal Victims Offenders

Reconfiguring Stigma in Studies of Sex for Sale Jeanett Bjønness, Lorraine Nencel, May-Len Skilbrei, 2021-09-23 *Reconfiguring Stigma in Studies of Sex for Sale* is about the production and effects of stigma in sex work or prostitution with contributions from four continents and different disciplines that taken together explore how such stigma is conditioned by differences in time place citizenship gender sexuality class and race Stigma is about relationships between people and also sets an interpretative frame whereby people understand and react to situations and actions and the book is developed and organized to investigate this from various angles It presents empirical studies that build on and expand the scholarship on stigma and sex work This means that it contributes to a more complex understanding of stigma in sex work studies Further by using the example of sex work to explore how we can best understand the production and consequences of stigma the book makes a contribution that is relevant for all scholars who work on stigma and stigmatization The book is intended for academic audiences interested in sex work or prostitution on the one hand and stigmatization on the other It is also intended for students in a broad range of disciplines as well as for practitioners and activists who encounter or work with stigmatization or stigmatized populations
