closer displacing everything Belleville has called home for the past fifteen years he tells a story that is much older 10 000 years older The story stretches back to the Timucua and the Mayaca living in harmony with Florida s environment the conquistadors who expected much from but also feared this land of flowers the turn of the century tourists modernizing and climatizing the state the original Cracker families who lived in Belleville s farmhouse In stark contrast to this millennia long transformation is the whiplash of unbridled growth and development that threatens the nearby wilderness of the Wekiva River system consuming Belleville s home and ultimately his very sense of place In Florida one of the nation s fastest growing states and where local and state governments encourage growth balancing use with preservation is an uphill battle Sprawl spreads into the countryside consuming not just natural lands but Old Florida neighborhoods and their unique history In Losing It All to Sprawl Belleville accounts for the impacts social political natural personal that a community in the crosshairs of unsustainable growth ultimately must bear but he also offers Floridians and anyone facing the blight of urban confusion the hope that can be found in the rediscovery and appreciation of the natural landscape

The Sound The Road Makes Steven E Meyer, 2025-07-17 Not only a wayward journey of living life and beating the odds this book is an inspiring romantic and sometimes clever venture through the grittiness of being human It's about surviving both the wilderness of the great outdoors and of the soul Just let the troubled kid grow out of it the doctors insisted Their misdiagnosis of a nerve condition trapped Steven inside his introverted

world On the outside he became strong and fast but inside he only grew more inwardly Confined within the walls of his vivid dreamworld like a lit fuse his adolescent years were on fire leaving a trail of rebellion and breaking the rules from living harder than the loneliness and pain warring inside His life calmed but never tamed once he discovered the hunger of the blank page in his late teens While writing ignited his imagination to life it wasn't until in his mid twenties when a white puppy brought steady companionship into Steven's life As they began their 14 year journey of roaming the open road Ghost grew into a beautiful dog and quite the ham Despite Steven's awkwardly social demeanor he crossed paths with wanderers loners and those searching for a place in this world misfits like himself adding adventure and romance to his own search of finding his place in this world Along the way Steven stumbled upon God The rules of religion couldn't hold him either finding himself instead wrestling with the creator of this universe more so than walking with Him He could never part with that daredevil spirit causing the second half of this book to be more thrilling than the first To write a book felt daunting because Steven had never written for anyone to read Ten years soared by and as the writing of it transformed into the greatest adventure of his life infused between the lines is a literary magic beyond him which occurs when a book and its writer merge into one Not only are some of the challenges and lessons learned the hard way of creating this book included in his memoir breathed into his story is what writing this book has burned into Steven's own heart
