The Best American Essays Of The Century Summaries:

The Best American Essays of the Century Joyce Carol Oates, Robert Atwan, 2000 Fifty five unforgettable essays by the finest American writers of the twentieth century The American Essay in the American Century Ned Stuckey-French, 2011-05-31 In modern culture the essay is often considered an old fashioned unoriginal form of literary styling The word essay brings to mind the uninspired five paragraph theme taught in schools around the country or the antiquated Edwardian meanderings of English gentlemen rattling on about art and old books These connotations exist despite the fact that Americans have been reading and enjoying personal essays in popular magazines for decades engaging with a multitude of ideas through this short form means of expression To defend the essay that misunderstood staple of first year composition courses Ned Stuckey French has written The American Essay in the American Century This book uncovers the buried history of the American personal essay and reveals how it played a significant role in twentieth century cultural history In the early 1900s writers and critics debated the death of the essay claiming it was too traditional to survive the era s growing commercialism labeling it a bastion of British upper class conventions Yet in that period the essay blossomed into a cultural force as a new group of writers composed essays that responded to the concerns of America s expanding cosmopolitan readership These essays would spark the magazine revolution giving a fresh voice to the ascendant middle class of the young century With extensive research and a cultural context Stuckey French describes the many reasons essays grew in appeal and importance for Americans He also explores the rise of E B White considered by many the greatest American essayist of the first half of the twentieth century whose prowess was overshadowed by his success in other fields of writing White s work introduced a new voice creating an American essay that melded seriousness and political resolve with humor and self deprecation This book is one of the first to consider and reflect on the contributions of E B White to the personal essay tradition and American culture more generally The American Essay in the American Century is a compelling highly readable book that illuminates the history of a secretly beloved literary genre A work that will appeal to fiction readers scholars and students alike this book offers fundamental insight into modern American literary history and the intersections of literature culture and class through the personal essay This thoroughly researched volume dismisses once and for all the death of the essay proving that the essay will remain relevant for a very long time to come **Dialogue and Critical Discourse** Michael Macovski, 1997-08-07 This interdisciplinary volume of collected mostly unpublished essays demonstrates how Mikhail Bakhtin s theory of dialogic meaning and its subsequent elaborations have influenced a wide range of critical discourses With essays by Michael Holquist Jerome J McGann John Searle Deborah Tannen Gary Saul Morson Caryl Emerson Shirley Brice Heath Don H Bialostosky Paul Friedrich Timothy Austin John Farrell Rachel May and Michael Macovski the collection explores dialogue not only as an exchange among intratextual voices but as an extratextual interplay of historical influences oral forms and cultural heuristics as well Such approaches extend the implications of dialogue beyond the

boundaries of literary theory to anthropology philosophy linguistics and cultural studies The essays address such issues as the establishment and exercise of political power the relation between conversational and literary discourse the historical development of the essay and the idea of literature as social action Taken together the essays argue for a redefinition of literary meaning one that is communal interactive and vocatively created They demonstrate that literary meaning is not rendered by a single narrator nor even by a solitary author but is incrementally exchanged and constructed *The Best American Essays*, 1995 Richard Wright Keneth Kinnamon, 2014-11-04 African American writer Richard Wright 1908 1960 was celebrated during the early 1940s for his searing autobiography *Black Boy* and fiction *Native Son* By 1947 he felt so unwelcome in his homeland that he exiled himself and his family in Paris But his writings changed American culture forever and today they are mainstays of literature and composition classes He and his works are also the subjects of numerous critical essays and commentaries by contemporary writers This volume presents a comprehensive annotated bibliography of those essays books and articles from 1983 through 2003 Arranged alphabetically by author within years are some 8 320 entries ranging from unpublished dissertations to book length studies of African American literature and literary criticism Also included as an appendix are addenda to the author's earlier bibliography covering the years from 1934 through 1982 This is the exhaustive reference for serious students of Richard Wright and his critics **A Comparative Analysis of the Great American and Arab Novel** Alen Ontl, 2018-07-26 This book represents the first comparative reading of the Great Novel of American and Arabic literature to date The Great American Novel that most elusive and frustrating of concepts ever present in film and literary scholarship has been an object of pursuit inspiration and contention for more than a century By reviewing the most serious literary scholarship in the field this book identifies the work often recognized by critics as the quintessential American novel the work that best captures the different aspects of American society and compares and contrasts it with its counterpart in Arabic culture Intended for both academics and serious readers of literature the book serves to establish a new trend in cross cultural literary scholarship in addition to opening up new vistas for literary exploration in this politically charged field **Essays, English and American, with Introductions, Notes and Illustrations**, 1910 The Twentieth-Century American Fiction Handbook Christopher MacGowan, 2011-02-21 THE TWENTIETH CENTURY AMERICAN FICTION Accessibly structured with entries on important historical contexts central issues key texts and the major writers this Handbook provides an engaging overview of twentieth century American fiction Featured writers range from Henry James and Theodore Dreiser to contemporary figures such as Joyce Carol Oates Thomas Pynchon and Sherman Alexie and analyses of key works include *The Great Gatsby* *Lolita* *The Color Purple* and *The Joy Luck Club* among others Relevant contexts for these works such as the impact of Hollywood the expatriate scene in the 1920s and the political unrest of the 1960s are also explored and their importance discussed This is a stimulating overview of twentieth century American fiction offering invaluable guidance and essential information for students and general readers

Twentieth Century, 1898 Reader's Guide to Literature in English Mark Hawkins-Dady, 2012-12-06 Reader's Guide to Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study *Encyclopedia of the Essay* Tracy Chevalier, 1997 A hefty one volume reference addressing various facets of the essay Entries are of five types 1 considerations of different types of essay e g moral travel autobiographical 2 discussions of major national traditions 3 biographical profiles of writers who have produced a significant body of work in the genre 4 descriptions of periodicals important for their publication of essays and 5 discussions of some especially significant single essays Each entry includes citations for further reading and cross references Annotation copyrighted by Book News Inc Portland OR **The Great American University** Jonathan R Cole, 2010-01-12 Although America's universities have become the envy of the world for their creative energy and their production of transformative knowledge few understand how and why they have become preeminent This groundbreaking book traces the origins and the evolution of our great universities It shows how they grew out of sleepy colleges at the turn of the twentieth century into powerful institutions that continue to generate new industries and advance our standard of living Far from inevitable this transformation was enabled by a highly competitive system that invested public tax dollars in university research and students while granting universities substantial autonomy Today America's universities face considerable threats Even greater than foreign competition are the threats from within the United States Under the Bush administration government increasingly imposed ideological constraints on the freedom of academic inquiry Restrictive visa policies instituted after 9 11 continue to discourage talented foreign graduate students from training in the United States The international financial crisis which has depleted university endowments and state investments in higher education threatens the vitality of some of our greatest institutions of higher learning In order to sustain and enhance the American tradition of excellence we must nurture this powerful yet underappreciated national resource *The Best American Short Stories of the Century* John Updike, Katrina Kenison, 2000 Including one new story and an Index by author of every story that has ever appeared in the series this new volume offers a spectacular tapestry of fictional achievement Entertainment Weekly *World-systems Analysis* Immanuel Maurice Wallerstein, 2004 A John Hope Franklin Center Book **An Investor's Notes on American Railroads** John Swann, 1886 *The American Year Book* Albert Bushnell Hart, 1927 **The American Bookseller**, 1878 Racism and Xenophobia in Early Twentieth-Century American Fiction Wisam Abughosh Chaleila, 2020-12-29 The Melting Pot The Land of The Free The Land of Opportunity These tropes or nicknames apparently reflect the freedom and open armed welcome that the United States of America offers However the chronicles of history do not complement that image These historical happenings have not often been brought into the focus of Modernist literary criticism though their existence in the record is clear This book aims to discuss these chronicles displaying in great

detail the underpinnings and subtle references of racism and xenophobia embedded so deeply in both fictional and real personas whether they are characters writers legislators or the common people In the main chapters literary works are dissected so as to underline the intolerance hidden behind words of righteousness and blind trust as if such is the norm Though history is taught it is not so thoroughly examined To our misfortune we naively think that bigoted ideas are not a thing we could become afflicted with They are antiques from the past yet they possessed many hundreds of people and they surround us still Since we ve experienced very little change it seems discipline is necessary to truly attempt to be rid of these ideas

American Drama of the Twentieth Century Gerald M. Berkowitz, 2014-07-15 In this book Professor Berkowitz studies the diversity of American drama from the stylistic experimental plays of O'Neill through verse tragedy and community theatre to the theatre of the 1990s The discussions range through dramatists plays genres and themes with full supporting appendix material It also examines major dramatists such as Eugene O'Neill Arthur Miller Sam Shepard Tennessee Williams and August Wilson and covers not only the Broadway scene but also off Broadway movements and fringe theatres and such subjects as women's and African American drama

Dictionary of World Biography: The 20th century, O-Z Frank Northen Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography
