The Blind Spot English Edition:

The Blind Spot Adam Frank, Marcelo Gleiser, Evan Thompson, 2024-03-19 A compelling argument for including the human perspective within science and for how human experience makes science possible This is by far the best book I've read this year Michael Pollan Professor of the Practice of Non fiction Harvard University 1 New York Times bestselling author A stimulating manifesto for changing the way we look at things Wall Street Journal It's tempting to think that science gives us a God's eye view of reality But we neglect the place of human experience at our peril In *The Blind Spot* astrophysicist Adam Frank theoretical physicist Marcelo Gleiser and philosopher Evan Thompson call for a revolutionary scientific worldview where science includes rather than ignores or tries not to see humanity's lived experience as an inescapable part of our search for objective truth The authors present science not as discovering an absolute reality but rather as a highly refined constantly evolving form of human experience They urge practitioners to reframe how science works for the sake of our future in the face of the planetary climate crisis and increasing science denialism Since the dawn of the Enlightenment humanity has looked to science to tell us who we are where we come from and where we're going but we've gotten stuck thinking we can know the universe from outside our position in it When we try to understand reality only through external physical things imagined from this outside position we lose sight of the necessity of experience This is the Blind Spot which the authors show lies behind our scientific conundrums about time and the origin of the universe quantum physics life AI and the mind consciousness and Earth as a planetary system The authors propose an alternative vision scientific knowledge is a self-correcting narrative made from the world and our experience of it evolving together To finally see the Blind Spot is to awaken from a delusion of absolute knowledge and to see how reality and experience intertwine *The Blind Spot* goes where no science book goes urging us to create a new scientific culture that views ourselves both as an expression of nature and as a source of nature's self-understanding so that humanity can flourish in the new millennium

The Blind Spot Jean-Yves Girard, 2011 These lectures on logic more specifically proof theory are basically intended for postgraduate students and researchers in logic The question at stake is the nature of mathematical knowledge and the difference between a question and an answer i.e. the implicit and the explicit The problem is delicate mathematically and philosophically as well the relation between a question and its answer is a sort of equality where one side is more equal than the other one thus discovers essentialist blind spots Starting with Gödel's paradox 1931 so to speak the incompleteness of answers with respect to questions the book proceeds with paradigms inherited from Gentzen's cut elimination 1935 Various settings are studied sequent calculus natural deduction lambda calculi category theoretic composition up to geometry of interaction GoI all devoted to explicitation which eventually amounts to inverting an operator in a von Neumann algebra Mathematical language is usually described as referring to a preexisting reality Logical operations can be given an alternative procedural meaning typically the operators involved in GoI are invertible not because they are constructed

according to the book but because logical rules are those ensuring invertibility Similarly the durability of truth should not be taken for granted one should distinguish between imperfect perennial and perfect modes The procedural explanation of the infinite thus identifies it with the unfinished i e the perennial But is perennality perennial This questioning yields a possible logical explanation for algorithmic complexity This highly original course on logic by one of the world s leading proof theorists challenges mathematicians computer scientists physicists and philosophers to rethink their views and concepts on the nature of mathematical knowledge in an exceptionally profound way *Blind Spot* Myriam Tadessé,2021-12-01 In *Blind Spot* Myriam Tadess exposes the difficulty even the impossibility for France to truly understand and celebrate the lived realities of mixed or biracial French citizens What the French word *métis* which translates to half breed or mixed race hides is how central the notion of race actually is in a society that claims to repudiate it The French film and theatre world in which Tadess has made her career appears unable to confront the individuality of the performers They are required to correspond to categories often based on race that don t allow for biracial identities This classification not only contradicts France s asserted ideals but also views as anomalies those who defy ethno racial assumptions Drawing on her personal experiences as a biracial Ethiopian French woman and her family history Tadess explores the realities of life for mixed race individuals in France through her searing and honest memoir Praise for *Blind Spot* Myriam Tadess s memoir combines formal innovation with a candid look back on her life and the harrowing experiences she s had with discrimination in her chosen field and in French society as a whole *Blind Spot* feels like a distillation of its author s life and a powerful testament to her day to day reality Tobias Carroll Words Without Borders

Blind-Spot Politics Paul Lendvai,2025 A leading Central European journalist investigates how political and intellectual elites in Europe s democracies underestimate and enable the continent s authoritarians from the Cold War onwards

The Tears of the Muses Gabriel Harvey, 2023-05-02 A poetic satire of ghostwriters being hired to write puffery of and by patrons and sponsors who pay to gain immortal fame for being great while failing to perform any work to deserve any praise This volume shows the similarities across Gabriel Harvey's poetic canon stretching from his critically ignored self-attributed Smith 1578 his famous Edmund Spenser bylined *Fairy Queen* 1590 and his semi-recognized Samuel Brandon bylined *Virtuous Octavia* 1598 This close analysis of Smith is essential for explaining all of Harvey's multi-bylined output because Smith is an extensive confession about Harvey's ghostwriting process Harvey's *Fairy Queen* is his mature attempt at an extensive puffery of a monarch which has been as Harvey predicted in Smith and Ciceronianus in return over-puffed as a great literary achievement by monarchy conserving literary scholars across the past four hundred years The relatively superior in its condensed social message and literary achievement Smith has been ignored in part because the subject of its puffery appears trivial from the perspective of national propaganda Smith Or *The Tears of the Muses* is a metered poetic composition that can also be performed as a multi-monologue play The central formulaic structure is grounded in nine Cantos that are delivered by each of the nine Muses this formula appeared in many British poems and interludes after its appearance in Nicholas Grimald's translation of a Virgil assigned poem called *The Muses in Songs and Sonnets* 1557 The repetitive nature of this puffing formula is subverted not only by the satirical and ironic contradictions that are mixed with the standard exaggerated flatteries of Sir Thomas Smith Elizabeth's Secretary but also with several seemingly digressive sections that puff and satirize other bylines including Walter Mildmay King's Councilor and John Wood Smith's copyist and nephew The central subject of the satire in Smith is Richard Verstegan's career as a goldsmith who forged antiques and committed identity fraud that included ghostwriting books under multiple bylines including passing himself as Harvey points out as at least two different Sir Thomas Smiths The introduction to this volume includes matching handwritten letters that were written by Smith 1 who died in 1577 and Smith 2 who died in 1625 and by Verstegan under his own byline In Smith's conclusion Verstegan responds with ridicule of his own directed at Harvey This is the first full translation of Smith from Latin into English The accompanying introductory matter extensive annotations and class exercises hint at the many scholarly discoveries attainable by researchers who continue the exploration of this elegant work Acronyms and Figures Exordium Biographies of Sir Smith and Connected Persons The Many Smiths and Their Matching Handwriting Synopsis English Translation of Smith Latin Original Smithus Text Terms References Questions Exercises [The New Century Dictionary of the English Language](#) Hulbert G. By Way of Obstacles Emmanuel Falque,2022-12-06 In By Way of Obstacles Emmanuel Falque revisits the major themes of his work finitude the body and the call for philosophers and theologians to cross the Rubicon by entering into dialogue in light of objections that have been offered In so doing he offers a pathway through a work that will offer valuable insights both to newcomers to his thought and to those who are already familiar with it For it is only after one has carved out one s pathway that one may see more clearly where one has been and where one might be going Here readers will discover the profound relation between Falque s emphasis on the human experience of the world and his desire for philosophy and Christian theology to enter into conversation For only by speaking within the human horizon of finitude can Christianity be credible for human beings and it is because Christian theology teaches that God entered into our finitude that it can also teach us something of what it is to be human Contemporary phenomenology Falque warns over privileges an encounter with the infinite that cannot be originary Calling us back to finitude he calls us to a deeper understanding of our humanity

The Jewish Self-Portrait in European and American Literature Hans-Jürgen Schrader,Elliott M. Simon,Charlotte Wardi,2011-07-22 The articles in this collection originated from an international symposium at the University of Haifa and centre around a major topic in German European and American literature i e the way in which Jewish self definition both positive and negative has materialized as a product of the tensions between secular culture and society on the one hand and Jewish tradition and

religion on the other The broad range of authors most of them of German speaking origin necessarily results in an almost equally broad range of answers to this central question The volume is dedicated to the memory of the Israeli literary scholar Chaim Shoham The Philistines and Aegean Migration at the End of the Late Bronze Age Assaf Yasur-Landau,2014-06-16 In this study Assaf Yasur Landau examines the early history of the biblical Philistines who were among the Sea Peoples who migrated from the Aegean area to the Levant during the early twelfth century BC Creating an archaeological narrative of the migration of the Philistines he combines an innovative theoretical framework on the archaeology of migration with new data from excavations in Greece Turkey Cyprus Syria Lebanon and Israel and thereby reconstructs the social history of the Aegean migration to the southern Levant The author follows the story of the migrants from the conditions that caused the Philistines to leave their Aegean homes to their movement eastward along the sea and land routes to their formation of a migrant society in Philistia and their interaction with local populations in the Levant Based on the most up to date evidence this book offers a new and fresh understanding of the arrival of the Philistines in the Levant **Lectures on Art** Christian Michel, Jacqueline Lichtenstein,2020-08-25 For the first time a critical selection of the Acad mie Royale de Peinture et de Sculpture s highly influential conferences is available in English Between 1667 and 1792 the artists and amateurs of the Acad mie Royale de Peinture et de Sculpture in Paris lectured on the Acad mie s conferences foundational documents in the theory and practice of art These texts and the principles they embody guided artistic practice and art theory in France and throughout Europe for two centuries In the 1800s the Acad mie s influence waned and few of the 388 Acad mie lectures were translated into English Eminent scholars Christian Michel and Jacqueline Lichtenstein have selected and annotated forty two of the most representative lectures creating the first authoritative collection of the conferences for readers of English Essential to understanding French art of the seventeenth and eighteenth centuries these lectures reveal what leading French artists looked for in a painting or sculpture the problems they sought to resolve in their works and how they viewed their own and others artistic practice
