Encyclopedia of Romance Fiction Kristin Ramsdell, 2018-09-07 As the first encyclopedia solely devoted to the popular romance fiction genre this resource provides a wealth of information on all aspects of the subject. Romance fiction accounts for a large share of book sales each year and contrary to popular belief not all of its readers are women; roughly 16 percent are men. This enormously popular genre continues to captivate people reading for pleasure and it also commands a growing amount of academic interest. Included are alphabetically arranged reference entries on significant authors along with works, themes and other topics. The articles are written by scholars, librarians and industry professionals with a deep knowledge of the genre and so provide a thorough understanding of the subject. An index provides easy access to information within the entries and bibliographies at the end of each entry; a general bibliography and a suggested romance reading list allow for further study of the genre.

Authentically Medieval Debra E. Best, Elizabeth L. Rambo, Patricia H. Ward, 2024-10-16 This collection compiles essays by medievalist scholars that examine the variety of ways authors have fictionalized the medieval period while meeting the challenge of creating engaging literature. More significantly this project seeks to explore the importance of authenticity in these works of medievalism. The works discussed represent a variety of genres including historical young adult, Arthurian detective fiction, paranormal romance and fantasy as well as adaptations of Beowulf and Chaucer's Canterbury Tales. Opening the collection are three essays by author scholars who share their processes of creating an authentic medieval world appealing to a wide audience. The remaining seven essays by medievalist scholars examine a variety of medievalist texts addressing the extent to which their authors adhere to the facts of the period while at times necessarily filling in historical gaps in the process of creating these works. Each of the essays addresses the concept of authenticity in fiction about the Middle Ages; together they become a lively conversation about authenticity in narratives of various genres.

On Literature J. Hillis Miller, 2003-09-02 Debates rage over what kind of literature we should read, what is good and bad literature and whether in the global digital age literature even has a future. But what exactly is literature? Why should we read literature? How do we read literature? These are some of the important questions J

Hillis Miller answers in this beautifully written and passionate book He begins by asking what literature is arguing that the answer lies in literature's ability to create an imaginary world simply with words On Literature also asks the crucial question of why literature has such authority over us Returning to Plato Aristotle and the Bible Miller argues we should continue to read literature because it is part of our basic human need to create imaginary worlds and to have stories Above all On Literature is a plea that we continue to read and care about literature

The Seduction of Pessimism in the Novel Tom Ribitzky, 2024-10-31 The Seduction of Pessimism in the Novel Eros Futility and the Quarrel with Philosophy explores the novel as a response to the Platonic myth that narrates the rift at the core of our being Eros is supposedly the consolation for this rift but the history of the novel documents its expression as one of frustrated desires neuroses anxieties and cosmic doom As if repeating the trauma from that original split in Plato a split that also divides philosophy from literature the novel treats eros as a site of loss and grief from the medieval romances to Goethe Emily Bront Proust Mann Woolf D H Lawrence and Nabokov The pessimism that emerges from this eros tells us something fundamental about who we are something that only the novel can say At a time when both education and leisure are increasingly ignoring the novel's imperative to sit with ambiguity complexity and contingency and as we are hurtling toward a bleak future of climate catastrophe and political instability the novel is one of the last bastions of humanity even as it is quickly being eroded
