The Boy and the Tower Nigel Shindler, Ph.d., Nigel Shindler Ph D, 2014-10-05 Many believe Jesus Christ managed to condense the Ten Commandments into two by declaring we should treat others as we would like them to treat us and we should love our neighbour as much as we do ourselves actually these two can be summarized into one Therefore all things whatsoever ye would that men should do to you do ye even so to them for this is the law and the prophets Matthew 7 12 KJV What we do to others happens to ourselves If we cannibalize others we actually inflict this upon ourselves the only spirit one takes is one s own These words are not just poetry a form of ethics a description of morality but science physics the order of the universe The depiction of a snake eating its own tale is can be considered a symbolic representation of the Law of One

The Boy and the Tower , 2015-05-16 I ve always loved to create something unique and original I could call my own I remember building towers from wooden blocks when I lived in Reading each was different from the one I built before In order to build a new tower I d dismantle the one already built I never grew bored doing this rather I managed to derived immense pleasure from knowing I was able to create so many different structures out of a small quantity of square blocks I guess this is the reason why I choose to view creation as a tower It came about from a destructive act Words exploded out into the furthest regions of space and over time they are joined by Jews until a tower is constructed Once the Jews leave the tower savages begin to tear it apart they re like mold that disintegrates the infrastructure of a building so eventually it falls to the ground The Lord then gathers the materials from the tower scatters them out into space again and the Jews collect them and build a tower different from the one before
