Into the Light Hon. Susan P. Carswell, 2012-10-11 This is the author's life story told in an uncommonly graphic style Severely abused as a child and continuing to be victimized as an adult Susan lived a confused double existence as a respected attorney and administrative law judge at Two World Trade Center in Manhattan and after hours as a partner with her ex husband in a drugged out violent lifestyle Her actions were a desperate attempt to block out memories that were too painful to remember let alone cope with in any effective way However Susan refused to give up and reached for what she never had and what we all need love At the mature age of fifty two Susan made Jesus her Savior and Lord and was thus born again As her relationship with the Lord matured and became more intimate a series of miracles began taking place inside and on the outside of the author For example her inside scars of abuse and powerful drug addiction were lifted from her In addition the Lord straightened Susan's curved spine from forty five degrees to approximately twenty degrees It is the author's desire to encourage all persons that it is possible to overcome even the worst of situations when one steps into the light and the love of our mighty God

criminalizing them as enemies of the state The authoritarian regime has permeated every aspect of economic social cultural and political life institutionalized primarily through the ongoing state of emergency declared in the wake of the July 15 2016 coup attempt one might also consider this as a controlled and manipulated toxoid coup This new climate has started to limit the opportunities of production and reproduction for the intellectuals and artists and even holding a dissident stance became a source of risk on its own The Republic of Turkey limited oppressed and punished the means of expression by giving one of the harshest and maybe the most violent reactions of its history against critical thought and opposition The culture of democracy which was almost already non existent has been completely abolished through the suspension of democracy on the ostensible level This ongoing period is one in which producers of critical knowledge and opposing artists are being faced with immense oppression and penal sanctions One of the outcomes of this process is a kind of new nomadism that we can sketch out as leaving behind And one of the forms of this leaving is voluntary or involuntary exile The majority of those whom we call new exile intellectuals today have relocated generally to Western Europe Great Britain the United States and especially to Germany This new wave of political forced migration which started in the aftermath of the Gezi uprisings and gained momentum following the coup attempt has been defined by the editors of the book as new exile in order to draw a framework as it has some unique characteristics different from the previous waves The fundamental property of this experience is the simultaneous mobilization of intellectual capital and bi polar opposition This oppositional stance is both against the dominant global order and against German style authoritarianism as well as Turkish style fascism It is bi polar in the context of exile The form of the opposition in question has the ability to take root in the lands it arrives at It does not point towards a single direction forward or backward and a single place the place it was ruptured it is here now and multidirectional This state of new exile bears the efforts of existing critical knowledge and art producers in the heim to which they have relocated as critical knowledge and art producers are opposed to the dominant world system as well as to fascism in Turkey As political subjects of the resistance against authoritarianism they are continuously and collectively fighting against the structural fate of displacement As both subjects and researchers of this current state of new exile it is our primary responsibility to understand and produce knowledge of these intellectuals responses in this new life to monitor the creation processes of the new mechanisms to cope with the challenges and to understand investigate the effects of all these on the transnational social space We have tried to determine the content of this book based on our own experiences as new exiled intellectuals We believe that in this period of new exile we are subjects and witnesses of a historic period due to our individual struggle for existence as well as our modes of organization and solidarity as a group of new exiled intellectuals On one hand we know that while transforming ourselves we pave the way for mutual interaction and the transformation of the structures in which we relate This is precisely why the motivation behind the idea of compiling this book lies not only in academic concerns such as analyzing the process and contributing to the literature on new exile but also in keeping a record

of our own stories creating memories of our new exilic lives strategies of existence solidarity and experiences of activism and in sharing them with intellectuals around the globe who face the same fate We believe that this book with academic analyses and personal stories of new exile intellectuals from different professions will also serve as a guide for the steps towards transnational collaborations
