Avoiding Politics Nina Eliasoph,1998-08-13
 Nina Eliasoph s vivid portrait of American civic life reveals an intriguing culture of political avoidance Despite the importance for democracy of open ended political conversation among ordinary citizens many Americans try hard to avoid appearing to care about politics To discover how where and why Americans create this culture of avoidance the author accompanied suburban volunteers activists and recreation club members for over two years listening to them talk and avoid talking about the wider world together and in encounters with government media and corporate authorities She shows how citizens create and express ideas in everyday life contrasting their privately expressed convictions with their lack of public political engagement Her book challenges received ideas about culture power and democracy while exposing the hard work of producing apathy
