Alley, Rosemarie Alley, 2013 A fascinating and authoritative account of the controversies and possibilities surrounding nuclear waste disposal providing expert discussion in down to earth language **The Sex Goddess in American Film, 1930-1965** Jessica Hope Jordan, 2009 In the first critical study of the sex goddess in film Jessica Hope Jordan illustrates how Jean Harlow uses her sexualized body to affect and seduce viewers away from any primary identification with those characters and their plotlines that are supposed to lead the film to identifying instead with the kind of sexual empowerment and self possession her characters consistently display Linking the idea of sexual empowerment to the filmic and public celebration of hyper feminine sexuality the book additionally covers previous feminist discussions of Mae West s

performances as feminist camp to argue that West sought to both celebrate and embody for women viewers what she viewed as cultural ideals of femininity and women's sexuality. With Lana Turner and the cinematic code, the book considers the many problems inherent in both the filmic and public celebration of hyper-feminine sexuality in relation to censorship and considers the effects of the Hays Code on hyper-feminine sexuality as depicted in film noir. The book also importantly presents the first critical discussion of the actress Jayne Mansfield, suggesting that her 1950s open acceptance celebration and public promotion of her feminine sexuality both onscreen and off makes her not only a precursor of the more sexually liberated 60s but also like the other actresses discussed here a kind of prescient performance artist even theorist of feminine sexuality in particular and cultural ideas about sexuality more generally. Beyond recouping her image as feminist, the book demonstrates how the kind of desire aroused by the sex goddess—a desire which remains endlessly suspended—works as a supreme example of the aesthetic apparatus of cinema itself.

Too Funny for Words David

Kalat, 2019-04-11

American silent film comedies were dominated by sight gags, stunts, and comic violence. With the advent of sound, comedies in the 1930s were a riot of runaway heiresses and fast-talking screwballs. It was more than a technological pivot; the first feature-length sound film, *The Jazz Singer* (1927), changed Hollywood. Lost in the discussion of that transition is the overlap between the two genres. Charlie Chaplin, Buster Keaton, and Harold Lloyd kept slapstick alive well into the sound era. Screwball directors like Leo McCarey, Frank Capra, and Ernst Lubitsch got their starts in silent comedy. From Chaplin's tramp to the witty repartee of *His Girl Friday* (1940), this book chronicles the rise of silent comedy and its evolution into screwball, two flavors of the same genre through the works of Mack Sennett, Roscoe Arbuckle, Harry Langdon, and others.

Industrial and agricultural greenhouse gas emissions are rapidly warming Earth's climate, unleashing rising seas, ocean acidification, melting permafrost, powerful storms, wildfires, floods, deadly heat waves, droughts, tsunamis, food shortages, and armed conflict over shrinking water supplies while reducing nutritional levels in crops. Billions of people will become climate refugees. Hotter temperatures will allow tropical diseases to spread into temperate regions. Higher levels of CO₂, allergens, dust, and other particulate matter will impair our physical and mental health and even reduce our cognitive abilities. Climate change disproportionately affects the world's poor. It also harms Nature and could ultimately trigger a sixth
