of current research and practice in curriculum planning this book presents that comprehensive topic in a manageable form. Examples throughout are representative of different grade levels and subjects areas. It should be understood at the outset that the content offered for curriculum planning is not a rigid prescriptive formula but a careful and purposeful thought process that must be considered to obtain optimal results. In addition to developing knowledge about curriculum and instructional planning, what teachers should know, this book offers an innovative method for translating that knowledge into performance, what teachers are able to do. Knowledge is implemented by the use of coaching rubrics, sets of criteria for developing performance. Though readers will receive a thorough background in the planning process just from the content itself, its potential will be fully realized when readers also use the coaching rubrics.

New York City's Best Public High Schools Clara Hemphill, 2007-09 If you lived anywhere else in the country you would probably send your child to your neighborhood high school. In New York City it's much more complicated than that. But what parent has time to research hundreds of school options? To help you choose a high school that is just right for your child, Clara Hemphill and her colleagues at *Insideschools* visited nearly all of the city's 400 high schools. This essential revision of the critically acclaimed parents' guide features new school profiles, invaluable advice to help parents and students through the stressful admissions process, and new sections on alternative schools, vocational schools, and schools for students learning English. Featuring interviews with teachers, parents, and students, this guide uncovers the inside scoop about school atmosphere, homework, student stress, competition among students, the quality of teachers, gender issues, the condition of the building, class size, and much more. For this third edition, I looked for schools that spark students' curiosity, broaden their horizons, and help them develop into thoughtful, caring adults. Clara Hemphill's *Parents' Guides* New York Daily News Brisk thoughtful profiles of topnotch, intriguing schools. Big Apple Parent Hemphill has done for schools what Zagat's did for restaurants. New York Magazine Thoughtful, well-researched, required reading. The New York Times A bible for urban parents.
