Web Search Amanda Spink, Michael Zimmer, 2008-09-16 The inspiration for this book emerged from the editors participation in a panel discussion on Web search engines at an annual meeting of the Association of Internet Researchers This multidisciplinary panel of Web search researchers revealed the diversity of scholars interested in Web searching coupled with a broad range of questions attitudes and approaches It became clear that more cross fertilization was necessary between the disciplines to ensure Web search engines the entities and Web searching the user behavior received the thorough scholarly attention they deserved This book is a result of that realization and an important first step in achieving new levels of awareness and collaboration across disciplines The book represents a core theme within the intellectual pursuits of the editors The first editor Spink is an information scientist who has worked with taught and has researched the informational dimensions of Web searching since 1997 The second editor Zimmer is a scholar of culture and communication who focuses on the political and ethical dimensions of new media and information technologies and whose dissertation research focused on the value related consequences of the quest for the perfect search engine

Effective Information Retrieval from the Internet Alison Stacey, Adrian Stacey, 2004-07-31 Effective Information Retrieval from the

Internet discusses practical strategies which enable the advanced web user to locate information effectively and to form a precise evaluation of the accuracy of that information Although the book provides a brief but thorough review of the technologies which are available for these purposes most of the book concerns practical future proof techniques which are independent of changes in the tools available For example the book covers how to retrieve salient information quickly how to remove or compensate for bias and tuition of novice Internet users Importantly the book enables readers to develop strategies which will continue to be useful despite the rapidly evolving state of the Internet and Internet technologies it is not about technological tricks Enables readers to be aware of and compensate for bias and errors which are ubiquitous on the Internet Provides contemporary information on the deficiencies in web skills of novice users as well as practical techniques for teaching such users

Digital and Media Literacy in the Age of the Internet Mary Beth Hertz, 2019-10-22. Today's educators are confronted on a daily basis with the challenges of navigating digital resources, tools, and technologies with their students. They are often unprepared for the complexities of these challenges or might not be sure how to engage their students safely and responsibly. This book serves as a comprehensive guide for educators looking to make informed decisions and navigate digital spaces with their students. The author sets the stage for educators who may not be familiar with the digital world that their students live in, including the complexities of online identities, digital communities, and the world of social media. With deep dives into how companies track us, how the Internet works, privacy, and legal concerns tied to today's digital technologies, strategies for analyzing images, and other online sources, readers will gain knowledge about how their actions and choices can affect students' privacy as well as their own. Each chapter is paired with detailed lessons for elementary, middle, and high school students to help guide educators in implementing what they have learned into the classroom. *Search Engine Optimization (Seo)* Samuel Blankson, 2008.
