Swedenborg And Jung A Gestalt Of Psychospiritual Development:

Swedenborg and Jung: a Gestalt of Psychospiritual Development Brian O'Neill, 2014-12-15 This book provides an overview of both Swedenborg and Jung through a gestalt lens of their lived experience *Jung and Swedenborg on God and Life After Death* Leon James, 2015-10-05 The work of Carl Jung 1875 1961 remains an influential presence in psychology today The Writings of Emanuel Swedenborg 1688 1772 are assuming greater importance in the psychological conception of the human mind The two together offer a rational and scientific explanation of the collective unconscious and life after death Jung's visions of the collective unconscious are supplemented by Swedenborg's dual consciousness The human mind is born immortal and continues life after death in its spiritual body Jung's description of the process of individuation is illustrated by Swedenborg's details about regeneration In both cases human personality development starts in this life and continues in the afterlife to eternity The mental health of the individual in the afterlife is dependent on acquiring in this life altruistic concerns and habits of positive thinking and interacting with others This requires that we know and manage the psychic forces that shape our development **Synchronicity and Intellectual Intuition in Kant, Swedenborg, and Jung** Paul Bishop, 2000

This study examines the filiation of a philosophical concept in relation to its use by the major 20th century thinker C G Jung It shows how Jung's theory of synchronicity stems from a long and deep preoccupation with such central themes as the mind body problem **Carl Jung and Maximus the Confessor on Psychic Development** G. C. Tympas, 2014 In a trans disciplinary framework Tympas presents a comparison of Jung's theory of psychic development and Maximus model of spiritual progress

The Development of Personality Carl Gustav Jung, 1991 Though Jung's main researches have centred on the subject of individuation as an adult ideal he has a unique contribution to make to the psychology of childhood Jung repeatedly underlined the importance of the psychology of parents and teachers in a child's development and he emphasized that an unsatisfactory psychological relationship between parents may be an important cause of disorders in childhood He maintained that all real education of children needs teachers who not only know how to learn but who can also develop their own personalities Jung devotes a large part of the book to expounding his views on these important subjects There is also an outline of the theory of child development a delightful snapshot from the life of a girl called Anna and her parents and a stimulating discussion of marriage as a psychological relationship Finally there is a chapter on child development and individuation **A Psychospiritual Model of Adult Development to Illuminate Healing** Nelda Ann Chafitelli, 1990

The Collected Works of C.G. Jung Carl Gustav Jung, Sir Herbert Edward Read, Michael Fordham, Gerhard Adler, William McGuire, 1954 **The Presence of Other Worlds** Wilson Miles Van Dusen, 1981
