The Passion of Ingmar Bergman Frank Gado, 1986 Acknowledged as one of the greatest filmmakers of this or any other time Bergman has with few exceptions written his own screenplays an uncommon practice in the film industry and for this practice critics refer to him as a literary filmmaker In this work Gado examines virtually the entire range of Bergman's literary output While treating the matter of the visual presentation of Bergman's films Gado concentrates on story and narrative and their relationship to Bergman's personal history Gado concludes that whatever the outward appearance of Bergman's works they contain an elementary psychic fantasy that links them all revealing an artist who hoped to be a dramatist the new Strindberg and who saw the camera as an extension of his pen Texts of the Passion Thomas H. Bestul, 2015-08-05 In this book Thomas H Bestul constructs the literary history of the Latin Passion narratives placing them within their social cultural and historical contexts He examines the ways in which the Passion is narrated and renarrated in devotional treatises paying particular attention to the modifications and enlargements of the narrative of the Passion as it is presented in the canonical gospels Of particular interest to Bestul are the representations of Jews women and the body of the crucified Christ Bestul argues that the greatly enlarged role of the Jews in the Passion narratives of the twelfth and thirteenth centuries is connected to the rising anti Judaism of the period He explores how the representations of women particularly the Virgin Mary express cultural values about the place of women in late medieval society and reveal an increased interest in female subjectivity **Passion and Paranoia** Charlotte Bloch, 2016-05-13 Analysing emotions and emotion management in the academic organization *Passion and Paranoia* shows how focusing on emotions in organizations can offer insights into important aspects and the dynamics of organizational processes Drawing on rich interview material this book demonstrates the often overlooked importance of emotions in academic life to reveal the manner in which emotion contributes to social bonds power relationships and hierarchies micro politics and processes of inclusion and exclusion from an academic career A significant contribution to the study of emotion and the academy *Passion and Paranoia* will appeal to sociologists and anthropologists researching work and organizations emotion academic culture and social relationships

The Seasons Sandro Jung,Kwinten Van De Walle,2018-09-01 Critics since the eighteenth century have puzzled over the form of James Thomson s composite long poem *The Seasons* 1730 1744 1746 its generically hybrid make up and its relationship to established genres both Classical and modern The textual condition of the work is complicated by the fact that it started as a stand alone poem *Winter* 1726 but was subsequently expanded as part of a revision process that lasted almost two decades through the addition of three further seasons poems Transforming from primarily devotional poem to georgic account of the role of man s laboring role in the creation the meaning of *The Seasons* shifted with each addition of new material Each revision introduced diverse subject matter while existing material was reorganized and occasionally moved from one season installment to another *The Genres of Thomson's The Seasons* is the first collection of essays exclusively devoted to the study of the work s formal heterogeneity polyvocality and polygeneric character All contributions examine the different modes descriptive reflective pastoral hymnal amatory epic georgic dramatic discourses political sentimental scientific and kinds that cooperate to make up the different installments and variants of *The Seasons* They probe the multifarious interactions between different genres and modes and how a renewed focus on the form of Thomson s long poem will result in an understanding of the processual character of *The Seasons* as a synthesizing simulacrum of various discourses and theories of composition The volume s essays map the generic anatomy of the poem in its different incarnations They shed light on the poet s conception of the descriptive long poem and his engaging with formal traditions that would have enabled contemporaneous readers to conceive of *The Seasons* as an assimilating and learned work to be read through both the works of the Classics and moderns Contributions revisit models explaining the structural complexity of *The Seasons* proposing others in their stead and consider Thomson as the author of a long poem in relation to other poets both English and in a transnational study Swedish The poem is furthermore contextualized in terms of sexuality and animal studies Ingmar Bergman Birgitta Steene,2005 Exhaustive compendium by one of the world s foremost experts on the Swedish master covers
