Environmental Protection Agency,1983 **Pleasure and Meaning in the Classical Symphony** Melanie Lowe,2007-02-07

Classical music permeates contemporary life Encountered in waiting rooms movies and hotel lobbies as much as in the concert hall perennial orchestral favorites mingle with commercial jingles video game soundtracks and the booming bass from a passing car to form the musical soundscape of our daily lives In this provocative and ground breaking study Melanie Lowe explores why the public instrumental music of late eighteenth century Europe has remained accessible entertaining and distinctly pleasurable to a wide variety of listeners for over 200 years By placing listeners at the center of interpretive activity *Pleasure and Meaning in the Classical Symphony* offers an alternative to more traditional composer and score

oriented approaches to meaning in the symphonies of Haydn and Mozart Drawing from the aesthetics of the Enlightenment the politics of entertainment and postmodern notions of pleasure Lowe posits that the listener's pleasure stems from control over musical meaning She then explores the widely varying meanings eighteenth century listeners of different social classes may have constructed during their first and likely only hearing of a work The methodologies she employs are as varied as her sources from musical analysis to the imaginings of three hypothetical listeners Lowe also explores similarities between the position of the classical symphony in its own time and its position in contemporary American consumer culture By considering the meanings the mainstream and largely middle class American public may construct alongside those heard by today's more elite listeners she reveals the great polysemic potential of this music within our current cultural marketplace She suggests that we embrace crosstalk between performances of this music and its myriad uses in film television and other mediated contexts to recover the pleasure of listening to this repertory In so doing we surprisingly regain something of the classical symphony's historical ways of meaning

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
