Multi-Voice Songs: A Selection Johannes Brahms, 2017-05-17 Unaccompanied choral works composed or otherwise arranged by Brahms for mixed choruses as well as individual men's and women's choruses include songs love songs romances quartets and duets **A Catalogue of Music and Books on Music** Kenneth Mummary (Firm),

Structurally Sound Eric Wen, 2017-05-17 A well written textbook by a learned musician practicing his craft The analyses are clearly argued and Wen projects a reassuring sense of authenticity in his approach to tonal music analysis The book will be of interest to many musicians especially those focused on Schenkerian theory and analysis I believe the book will be a welcome addition to the range of teaching manuals on the subject Music Theory Online Music theorist Eric Wen presents in depth analyses of seven masterworks from the common practice period of Western art music Bach Air from Orchestral Suite No 3 in D BWV 1068 Mendelssohn Andante con moto tranquillo from Piano Trio No 1 in D minor Op 49 Schubert Nacht und Traume D 827 Haydn Adagio Vivace assai from Symphony No 94 in G Hob I 94 Mozart Molto Allegro from Symphony No 40 in G minor K 550 Beethoven Marcia funebre Adagio assai from Symphony No 3 in E flat Op 55 Brahms Un poco presto e con sentimento from Violin Sonata No 3 in D minor Op 108 Wen employs the analytic approach developed by Heinrich Schenker a method that uses musical notation to clarify and illuminate a work's structural hierarchies Copiously illustrated with analytic musical examples that elucidate the tonal organization of each of the seven works this study also explores aspects of form rhythmic organization and programmatic meaning This volume will be of particular interest to musicologists and professional musicians and it will also appeal to listeners keen to probe the rich complexities of these masterpieces

Forthcoming Books Rose Arny, 2002-02 **Bowker's Complete Video Directory**, 2000 **Handbook of Guitar and Lute Composers** Hannu Annala, Heiki Matlik, 2010-10-07 In compiling this landmark sourcebook Finnish guitarists Hannu Annala and Heiki Matlik consulted more than 70 music texts as well as dozens of composer resumes acquired from the musical information centers of several countries During the writing process which lasted for more than three years they received additional information from many modern composers including Leo Brouwer and Reginald Smith Brindle among others In addition several internationally renowned performing guitarists provided valuable information these include Magnus Andersson Sweden Remi Boucher Canada Margarita Escarpa Spain Aleksander Frauchi Russia and David Tanenbaum USA among others The authors aim was to write a well structured book with separate chapters for each instrument such as the Renaissance and Baroque guitar the Renaissance and Baroque lute the vihuela etc This unique structure enables the reader to easily discover which composers wrote for a certain instrument during any given period In addition to the composers one would expect to find in such a comprehensive listing the book documents several historical and modern composers for whom little previous information has been available the book's list of more than 400 guitar and lute concertos dating from the Baroque era to the present day is a totally unprecedented Short introductions regarding guitar

and lute like instruments as well as their basic histories are provided at the beginning of the book the authors hope that the Handbook of Guitar and Lute Composers will serve as a practical guide for both amateurs and professionals encouraging further study of the history of these instruments and expanding the repertoire heard on today's concert stage
