Eugene Field: A Study in Heredity and Contradictions (Complete) Slason Thompson,1901-01-01 **Castiglione's Allegory** W.R. Albury,2016-04-08 Castiglione s Book of the Courtier Il libro del cortegiano 1528 a dialogue in which the interlocutors attempt to describe the perfect courtier was one of the most influential books of the Renaissance In recent decades a number of postmodern readings of this work have appeared emphasizing what is often characterized as the playful indeterminacy of the text and seeking to detect inconsistencies which are interpreted as signs of anxiety or bad faith in its presentation In contrast to these postmodern readings the present study conducts an experiment What understanding does one gain of Castiglione s book if one attempts an early modern reading The author approaches The Book of the Courtier as a text in which some of its most important aspects are intentionally concealed and veiled in allegory W R Albury argues that this early modern reading of The Book of the Courtier enables us to recover a serious political message which has a great deal of contemporary relevance and which is lost from sight when the work is approached primarily as a courtly etiquette book or as a lament for the lost influence of the aristocracy in an age when autocratic nation states were coming into being or as an impersonal textual field upon which a free play of transformations and deconstructions may be performed *Hand-book of Logic* John James Tigert,1896

Private Practices Saskatchewan Meredith Cherland University of Regina, 2013-10-23 First Published in 1994 The study of literacy no longer focuses solely on psychological processes In the past ten years literacy has been reconceptualized as a social practice or rather as social practices that make up the fabric of daily life Using an anthropological perspective *Private Practices* examines the broad fictional reading of middle class pre-teen girls and offers fresh insights into the place of literacy both at home and at school in the construction of gender The author provides a wealth of evidence to support the central assumption of the book Gender is a cultural and social construction not a biological given Gender is something that people create while interacting with each other in all the practices of their daily lives including their literacy practices The book also provides critical analysis and commentary concerning the role that reading fiction plays in cultural reproduction In the hope that deeper knowledge of literacy as a social practice will support social transformation and eventually social justice the author suggests compelling reasons for the fact that girls read more fiction and different fiction than do boys
