periods of economic study reveal the change in its character Adam Smith 1776 Inquiry into the Nature and Causes of the
wealth of nations Nassau Wm Senior 1836 The science which treats of the nature the production and the distribution of
wealth Luigi Cossa 1877 The science of the social ordering of wealth Seager 1913 Economics is the social science which
treats of that portion of human activity which is concerned with earning a living b Money is the center around which
economic science clusters because in this world of ours it is the one convenient means of measuring human motive on a large
scale c Not all subjects of study are sciences The characteristics of the sciences are ability to classify facts or phenomena in
orderly arrangement and to establish relations of sequence or cause among them From these follow some possibility of
prediction Sciences have these characteristics in very different degrees About the Publisher Forgotten Books publishes
