The Netflix Vision of Horror Sotiris Petridis, 2021-07-05 Since the emergence of on demand streaming platforms television as a storytelling medium has drastically changed The lines between TV and cinema are blurred Traditionally television relied on narrative forms and genres that were highly formulaic striving to tease the viewer onward with a series of cliffhangers while still maintaining viewer comprehension Now on platforms such as Netflix the lack of commercial breaks and the practice of binge watching have led to a new type of television flow that urges viewers to see and consume a series as a whole and not as a fragmented narrative This book examines the structuring methods of 13 Netflix original horror series including Chilling Adventures of Sabrina Stranger Things Hemlock Grove The Haunting of Hill House and Santa Clarita Diet Although these shows use television as the medium of storytelling they are structured according to the classical rules of film

William Blake, the Single Vision, and Newton's Sleep Keith Davies, 2023-07-27 The history and philosophy of scientific ideas and the role of imagination play in our understanding of science and progress are widely explored in this book By examining the views of William Blake and other poets in the context of twentieth century philosophers Hannah Arendt Jacob Bronowski Martin Heidegger Bruno Latour and Karl Popper amongst others the book takes an eclectic approach drawing on examples from biology history literature philosophy and economics arguing for the reestablishment of imagination as a central attribute of science that may help to resolve some of our most pressing ecological problems as seen in the context of science and technology studies and what is loosely developing into the discipline of environmental humanities Today influential scientists looking at consciousness dismiss imagination regarding it at best as a mere epiphenomenon a ghost in the machine or at worst non-existent and to be denied In this book Keith G Davies who sees C P Snow's debate on the separation of the arts and sciences as alive and well traces the schism back to Plato but more importantly to the seventeenth century and David Hume's removal of imagination in the conjunction between our observation of causes and their effects Through extensive research and use of poetry this book offers an alternate understanding of science with imagination and its continued significance in today's world This book is an excellent reference book for postgraduate students professional researchers William Blake scholars and the pejoratively labelled interested laymen with concerns in ecology and environmental humanities through offering a new perspective on the history of science and the role of imagination within this field

The Vision of the Priestly Narrative Suzanne Boorer, 2016-10-21 A fresh look at the Priestly narrative that places less weight on linguistic criteria alone in favor of narrative coherence Boorer explores the theology of an originally independent Priestly narrative Pg extending through Genesis Numbers as a whole In this book she describes the structure of the Priestly narrative in particular its coherent sequential and parallel patterns Boorer argues that at every point in the narrative s sequential and parallel structure it reshapes past traditions synthesizing these with contemporary and unique elements into future visions in a way that is akin to the timelessness of liturgical texts The book sheds new light on what this material might have sought to accomplish as a whole and how it might have functioned for its original audience Solid arguments based on genre and themes with regard to a once separate Priestly narrative Pg that concludes in Numbers 27 Thorough discussion of the overall interpretation of the Priestly narrative Pg by bringing together consideration of its structure and genre Clear illustration of how understanding the genre of the material and its hermeneutics of time is vital for interpreting Pg as a whole

Visions of the Rapture and Unseen Realm Glenda Dumas, 2016-11-30 The Lord shall descend from heaven with the voice of the archangel The angel that I saw may be Michael Michael and Gabriel are the only archangels that are mentioned in the Bible Michael appears to have a key role in the end time plan of God Therefore it may be a strong guess that Michael is the angel that I saw and communicated with about the Rapture I also have a special message for gang members drug abusers adults teenagers and the youth I wrote my visions down for you to know what is out there waiting for you on the other side of the veil I peeped over and saw some things that

were good and witnessed a horror that was beyond my wildest dreams Most of you have not read the Bible and a number of you who have act as though you have forgotten what is in it I often encounter people old and young who say that they cant understand the Bible Therefore I use a number of verses that are taken directly from the Bible to support the visions that I have seen I am doing this purposely to acquaint you with a book that you all know but very seldom pick up to read Hopefully it will be a reminder that the Bible is inclusive of everything from the beginning of time to the end Most of these Bible verses are self explanatory The Book of Ezekiel and the Poem of Erra Daniel Bodi,1991 **The Navy List** ,1950
