

Using a General Journal

Step 2 of 12

Our business has been running for a bit. As in the last lesson, we've made some sales and paid rent. To see how these are recorded in a journal, click: Accounting Docs → Journal.

The most recent transaction is at the bottom.

What is our most recent transaction?

- ☐ Sale, paid by cash
- ☐ Payment of rent
- ☐ Purchase of parts

Current Issue: Working on Steps

Hearings on National Defense Authorization Act for fiscal year 1998--H.R. 1119 and oversight of previously authorized programs, before the Committee on National Security, House of Representatives, One Hundred Fifth Congress, first session United States,1998 *Cyberhound's Guide to Companies on the Internet* Gale Group,Wendy H. Mason,1996-09 This guide contains reviews of more than 2000 corporate Web sites profiling top companies and those in the information industry including software and hardware developers and networking and telecommunications companies

Managing Virtual Enterprises ,1996 **Handbook of Airline Strategy** Gail F. Butler,2001 *Economic Espionage, Technology Transfers, and National Security* United States. Congress. Joint Economic Committee,1997 Principles of Artificial Intelligence Harry Katzan Jr.,2025-05-05

This book covers the Principles of Artificial Intelligence It is both a text book and a reference book It is one of many books on the subject of artificial intelligence There are more than 400 of them It is the only one that covers principles that is intended to reflect on how to go about doing AI for productive purposes It also covers about what AI is already but it is more than that It answers the question Can a machine think and most people are quite tired of that question In fact people are now more interested in how to do what we want to do In fact AI is a important subject in our lives and here are two outstanding books that atune to that assertion The Singularity is Nearer 2024 by Ray Kurzweil Artificial Intelligence A Modern Approach 1995 by Stuart Russell and Peter Norvig The writers are exceedingly intelligent and the books are useful but not that easy to read University research is equally noteworthy But what about the strategy of adopting AI for the modern operational environment How do you know what to do and how to do it Do you have to be a scientist or a mathematician to do the job Absolutely not Do you need to be a manager a major CEO or even the President of a country Probably yes But you need to have the information to do the job This book gives you what you should do to implement AI in the organization and precisely what you need to know in order to do it When doing the job of implementing should you be knowledgeable about precisely what has to be done Of course Do you personally have to do it Not at all Do you need information on related subjects of course again Do you have to read this book serially Of course not it is too detailed But when you finally get it done properly you do deserve to be a DAI that is a Doctor

of Artificial Intelligence That is proposed to be the case in the future Will this be happy reading On some topics yes Other sections not so much There are a lot of pages because the environment of AI is large and complicated Many of the subjects covered in this book will be extremely useful in other areas of business and the organization Artificial Intelligence is an extremely volatile subject It is being adjusted daily and it is almost impossible to figure out what is actually going on The book will be revised and probably copied in content with an air of improvement That is the way the world operates Have a useful and interesting time reading the book It will be worth the effort One more thing The book is for finding out about AI and associated subjects Who knows what the professional and everyday people want to know The book is for everyone Equally important is the fact that the book is specifically designed for an online college course on AI and supports that assertion by including a substantial choice of subjects for the online professor For example the last section on managing uncertainty is very strongly AI based on the Theory of Evidence through the information on Dempster Shafer Theory The author has been involved with AI since a university 3 week seminar in 1963 for a large corporation and taught one of the first graduate level university courses on AI in 1978 He has been the CEO of Artificial Intelligence Consulting AICON a university professor and an international AI consultant after working for Boeing Oak Ridge National Lab and IBM He has written a few books and a few more peer reviewed papers **Data Processor** ,1976 **Business World** ,1993-04 *Computerworld* ,1992-03-16 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network Working Mother ,2001-10 The magazine that helps career moms balance their personal and professional lives **Greener Marketing** John Grant,2020-07-07 BUSINESS BOOK AWARDS FINALIST 2021 This timely book is a sequel to John Grant's Green Marketing Manifesto 2007 the award winning and bestselling definitive guide to green marketing and not greenwashing Fast forward to mid 2020 Climate Change is back at the top of the public and political agenda Even after covid 19 hundreds of big name CEOs are committing to a green recovery And surveys show widespread global public support for this and recent shifts in sustainable behaviours and attitudes in markets ranging from organic food to flying Sustainable brands are significantly outperforming conventional ones As are sustainability related stock prices Companies like Unilever continue to set ambitious targets related not just to climate but biodiversity and deforestation plastics social justice regenerative farming Sustainability related trends such as plant based foods and electric vehicles are showing steep growth and creating tomorrow's superbrands Impossible TESLA This book is packed with up to date learnings case examples and trends covering everything from eco labelling transparency and the circular economy to rebound effects sustainable finance blockchain and regenerative farming A core message being that to drive sustainability marketers firstly do really need to properly understand sustainability its many applications and implications Secondly to be effective marketers need to understand what it means to

their consumers and other significant audiences Hence the book takes a long hard look at what was driving all the protests boycotts and petitions in 2019 and what ideas causes and platforms caught the public imagination The ultimate goal is to go beyond marketing that simply looks good to marketing that does good This book helps in achieving that goal by showing the reader how to Uncover strategies for sustainable marketing that actually deliver on green and social objectives not just greenwashing Reconceptualise marketing and business models and learn to recognise the commercial strategies and approaches that are no longer fit for purpose Learn how hot topics like the climate crisis biodiversity social justice single use plastics and supply chain transparency influence green and social marketing Read about numerous examples and case studies from both brand leaders and challengers that have developed innovations and fresh creative approaches to green and social marketing Get practical tools models facts strategies workshop and project processes and business case rationales so that you can build your own plans and proposals This book is intended to assist marketers by means of clear and practical guidance through a complex transition towards meaningful marketing that makes a positive creative impact on the climate crisis and on improving human life in troubled times Aimed both at big companies that are trying to be good and good companies that are trying to be big

Computerworld ,1977-02-21 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network
