WARNINGS

Prior to operating the vehicle, carefully read this Owner's Manual in order to get acquainted with its operational characteristics and safe and proper operation.

1. Fuel is extremely flammable and explosive; therefore it requires special handling precautions:
 - Stop the engine prior to refilling the tank.
 - Fill the tank outdoors; never approach the tank with a lit cigarette, open flame or sparks.
 - Thoroughly wipe off any spilled fuel.
2. The engine should not be run in an enclosed space or nearby entrances to lower-level areas (cellars etc.). Engine exhaust gases are toxic and denser than normal atmospheric air.
3. When starting or running the engine, never touch the ignition coil, high voltage cable, ignition spark plug cap or other parts of the electrical system.
4. The vehicle is equipped with a catalyst exhaust system causing high temperatures. When the engine is running and for some time after it has stopped, do not touch its hot parts: the cylinder, the cylinder head, and exhaust silencer. Also do not touch the brake components.
5. When the engine is running beware of the engine's rotating parts.

NO modification of the vehicle, stripping-off any parts or installing non-original spare parts is permitted. The vehicle owner is specifically warned that any modification to the exhaust system can only result in the vehicle's deteriorated operation, without any positive effects on engine performance and causes higher air pollution.

RIDING SAFETY TIPS

Riding a two-wheeler is simple, yet it requires some skills and experience which can only be accumulated progressively. Prior to each ride, observe the following rules:

1. Check the proper functioning of all vehicle assemblies.
2. When riding, wear light-colored, preferably light-reflective clothes; ride with your lights on; avoid riding in other drivers "blind spots" to prevent danger of other drivers "overlooking" you.
3. Abide by all traffic regulations; above all, adjust your riding speed to the road conditions and your skill level.
4. Do not hand the vehicle over to any inexperienced riders.
5. Prior to changing lanes, always check that this can be done safely, and signal your intention in time. Be very careful when riding through road crossings or passing other vehicles (including parked vehicles).
