Experiencing Translationality Piotr Blumczynski,2023-05-16 This innovative book takes the concept of translation
beyond its traditional boundaries adding to the growing body of literature which challenges the idea of translation as a
primarily linguistic transfer To gain a fresh perspective on the work of translation in the complex processes of meaning
making across physical social and cultural domains conceptualized as translationality Piotr Blumczynski revisits one of the
earliest and most fundamental senses of translation corporeal transfer His study of translated religious officials and
translated relics reframes our understanding of translation as a process creating a sense of connection with another time
place object or person He argues that a promise of translationality animates a broad spectrum of cultural artistic and

commercial endeavours it is invoked for example in museum exhibitions art galleries celebrity endorsements and the manufacturing of musical instruments Translationality offers a way to reimagine the dynamic entanglements of matter and meaning space and time past and present This book will be of interest to students and scholars in translation studies as well as related disciplines such as the history of religion anthropology of art and material culture Engineering and Contracting ,1906
