offers a critique of and alternative to still dominant monolingual theories pedagogies and practices in SLA TESOL and
bilingual education Critics of the monolingual bias argue that notions such as the idealized native speaker and related
concepts of interlanguage language competence and fossilization have framed these fields inextricably in relation to
monolingual speaker norms In contrast these critics advocate an approach that emphasizes the multiple competencies of bi
multilingual learners as the basis for successful language teaching and learning This volume takes a big step forward in re
situating the issue of multilingualism more centrally in applied linguistics and in so doing making more permeable its key sub
disciplinary boundaries particularly those between SLA TESOL and bilingual education It addresses this issue head on
bringing together key international scholars in SLA TESOL and bilingual education to explore from cutting edge
