Gender, Sexuality and Peace Education Laura L. Finley, Robin Cooper, 2018-06-01 This edited volume authored by scholars students

and activists focuses on how peace educators at the collegiate level can more effectively address gender and sexuality. Chapters focus on the classroom and the campus at large and emphasize the importance of interdisciplinary practice, thoughtful approaches that offer both challenges and safety and solidarity and support. The volume includes entries on hot and important topics including trigger warnings, using popular culture in the classroom, sex trafficking, campus sexual assault, and more. Contributors come from a variety of disciplinary areas, making the volume eclectic in nature. Further, most entries include student voices, providing much needed agency for college youth. While the book does offer a critical perspective, importantly, chapters also offer hope and possibility.

The Development of the Sunday-school, 1780-1905, 1905 [A View from the Pew](#) Shirle Moore Smith, 2020-10-19 If you struggled as a Christian and sometimes wanted to give up, this testimony might help you. We are sheep and we are meant to be led by the shepherd. Jesus said, Follow me to the apostles. Before He left, He sent the Holy Spirit to be with them and in them. They were to be led and empowered by the Holy Spirit. This is for us today.

[A Battlefield of Values](#) Stephen D. Burgard, Benjamin J. Hubbard, 2015-12-14 Differing moral views are dividing the country and polarizing the left and the right more than ever before. This book offers unique solutions to improve communication and understanding between the two factions to fix our fractured political system. Morality is at the heart of political contention in American society. Unfortunately, our polarized belief systems severely inhibit the achievement of bipartisan compromises. A Battlefield of Values, America's Left, Right, and Endangered Center provides a candid but nonjudgmental examination of what people think and believe and how this informs our divisions over core values. By addressing how individuals believe rather than how they vote, the book illuminates why 21st century America is so conflicted politically and religiously, exposes what matters most to those on the right and left of the political, religious, and cultural spectrum, explains why the members of the endangered center in American life, the moderates, are struggling to make sense of the great divide between conflicting ideologies, and predicts how a degree of reconciliation and detente might be possible in the future. Authors Stephen Burgard and Benjamin J. Hubbard build a powerful case for how authentic communication between political factions is integral to bettering our society as a whole. Along the way, they illustrate the impact of religion and media on American belief systems and also explore the inability of news media to serve as mediators of this dilemma. This work will fascinate lay readers seeking perspective on our current political stalemate as well as serve college students taking courses in political science, communications, journalism, anthropology, or religious studies.

[Nine Pints](#) Rose George, 2024-06-04 Los Angeles Times Book Prize Finalist A compelling chronicle of the science, politics, and business of blood. The Wall Street Journal: Blood carries life, yet the sight of it makes people faint. It is a waste product and a commodity pricier than oil. It can save lives and transmit deadly infections. Each one of us has roughly nine pints of it, yet many don't even know their own blood type. And for all its ubiquitousness, the few tablespoons of blood discharged by 800 million women are still regarded as taboo. Menstruation is perhaps the single most demonized biological event. Rose George, author of The Big

Necessity takes us from ancient practices of bloodletting to the breakthrough of the liquid biopsy which promises to diagnose cancer and other diseases with a simple blood test She introduces Janet Vaughan who set up the world's first system of mass blood donation during the Blitz and Arunachalam Muruganantham known as Menstrual Man for his work on sanitary pads for developing countries She probes the lucrative business of plasma transfusions in which the US is known as the OPEC of plasma And she looks to the future as researchers seek to bring synthetic blood to a hospital near you Spanning science and politics individual's stories and global epidemics *Nine Pints* reveals our life's blood in an entirely new light One of Bill Gates Recommended Summer Reading Titles Stellar An informative elegant and provocative exploration of the life giving substance A wondrously well written work Booklist starred review Both fascinating and informative George packs her book with the kinds of provocative witty and rigorously reported facts and stories sure to make readers view the integral fluid coursing through our veins in a whole new way Kirkus Reviews starred review George charges down wholly unexpected avenues of medical history and global injustice leaving the reader by turns giddy and appalled And always always in awe of the writing Mary Roach author of *Grunt The Curious Science of Humans at War* A very good book The New York Times *America: Our Sacred Honor* Mary A.
