been years since you last played a game in the series or this is your first time we've got some pointers to help you make the most of your time on planet ZDR. Dread is a difficult game although it's not particularly punitive in many respects. This newly added EMMI foe that has been featured heavily in the game's marketing poses a significant threat to Samus; however, many thanks to checkpoints which is outside of the zones you occupy, a run-in with one will only cost you a minute or two at most. Boss confrontations may as well be challenging until you discover their tactics; however, you'll be able to make things simpler on yourself by doing some quick survey.
