The End of America? Alan Friedman, 2025-01-16 America was the shining city on a hill It was the country at the forefront of the world democratic order the global policeman the might of its military matched only by the depth of its financial reserves America was the one the world listened to whether it wanted to or not So what happened Well a lot of things In this searing account Alan Friedman shows how from the disastrous Vietnam War to Barack Obama's bungled response to the Arab Spring American intervention has ceased to be the decisive action it once was And now with the rise of China and Russia coupled with America's prostration of itself following the election of Donald Trump the decline of its authority is only hastening We move now Friedman argues into the New World Disorder In this dangerous and unstable world the Washington enforced liberal order is receding and a new set of alliances and anxieties are in ascendance What is America's place in this Which powers are going to emerge as the leaders Will the European Union count at all One thing is for sure the effects of the New World Disorder will challenge our Western values to breaking point [PC Mag](#), 2004-12-14
