The American Journal of the Medical Sciences, 1863 *British Medical Journal*, 1929 *Sleep Strength* Claes Zell, 2020-02-29 Numerous reports show the importance of the muscles for the individual's well-being. Many researchers now also recognize the importance of muscles for the quality of sleep, even at a high age. Authors describe how activation of the strong muscles can be balanced with deactivation of the endurance. People suffering from insomnia showed significantly reduced blood BDNF levels, which is a signaling protein in the central nervous system. Physical exercise increases circulating BDNF levels and increases the amount of subsequent SWS waves deep sleep. The strong muscle fibers increased in the older individuals, suggesting delayed age-related loss in muscle mass. Strong muscle gives an independent life at large and is important for relieving insomnia with increasing age. The author has developed and adapted exercises for today's modern humans. The importance of leg strength for sleep cannot be overstated; that are important. The legs have the largest muscles in the body but also the most endurance. The legs provide a balance pool for a secure sleep state

The Westminster Review, 1863 **Emancipation Through Muscles** Michael Brenner, Gideon Reuveni, 2006-01-01 Although the study of Jewish identity has generated a growing body of work, the topic of sport has received scant attention in Jewish historiography. *Emancipation through Muscles* redresses this balance by analyzing the pertinence of sports to such issues as race, ethnicity, and gender in Jewish history, and by examining the role of modern sport within European Jewry. The accomplishments of Jews in the intellectual arena and their notable presence among Nobel Prize recipients have often overshadowed their achievements in sports. The pursuit of sports among Jews in Europe was never a marginal phenomenon, however. In the first third of the twentieth century, numerous Jewish sport organizations were founded throughout Europe, and prowess in the realm called muscle Jewry by the Zionists was a symbol of widespread pride among European Jews. Some Jewish teams were remarkably successful; the legendary Austrian soccer champion Hakoah Vienna was arguably the most visible Jewish presence in interwar Vienna, and many readers will be surprised to learn that outstanding soccer teams such as Ajax Amsterdam and Tottenham Hotspur are still considered Jewish teams. The contributors to this volume, an international group of scholars from a variety of fields, explore the diverse relationships between Jews and modern sports in Europe
