

SURVEY – 1 : LAB 01

INTRODUCTION TO TOTAL STATION

AIM:

This lab is designed with the aim of familiarizing students with the components of total stations used for surveying and learning the method of performing centering and leveling exercises.

A BRIEF DESCRIPTION OF TASK:

By the end of this lab, students must have no difficulty in setting up the total station for operating in the field. Students are also expected to have a good grasp on the working of a total station and on naming all of the different components of a total station. As the accuracy is highly dependent on leveling the instrument, students perform exercises for centering and leveling the unit.
